NEXT / TABLE,
Paola Navone

New combinations of materials characterise the Next table family. Available with round or oval top in two sizes, they are characterised by a top available in white Carrara marble (20 mm) or Canaletto walnut lacquered natural, or lacquered (30 mm). The base, on the other hand, is made from a single central leg made of polished cast aluminium: the light reflecting on the surface creates a visual effect that is different every time.
