SILVER / SUSPENSION LAMP, Paola Navone

A family of suspension lamps with a refined and contemporary language, made from a thin plate in nickel-plated brass with lunar reflections, available with a delicate curvature in the smaller version or very accentuated in the larger one. Thanks to its light design it seems to float in the air, gently wrapping the light source. They can be used individually or combined with each other for an even more suggestive and cinematographic effect. Given the total craftsmanship of the product, it is possible that small stains may appear over time due to oxidation of the brass. These stains are therefore not defects but a characteristic of the material. Small superficial marks, scratches, creases etc. are caused by the hand-hammering process on the brass, so they are characteristic of the manufacturing process. Supplied with complete wiring set. Metal upper part for fixing to the ceiling. Max. power 18 W, max. 220 Volt, bulb holder E 27, bulb not included (electrical cable length 250 cm; steel cable length 200 cm).

Directive 2002/96/EC (Waste Electrical and Electronic Equipment - WEEE): information for users. This product complies with EU Directive 2002/96/EC. The crossed-out wastebasket symbol on the appliance means that at the end of its useful lifespan, the product must be disposed of separately from ordinary household wastes. The user is responsible for delivering the appliance to an appropriate

collection facility at the end of its useful lifespan. Appropriate separate collection to permit recycling, treatment and environmentally compatible disposal helps prevent negative impact on the environment and human health and promotes recycling of the materials making up the product. For more information on available collection facilities, contact your local waste collection service or the shop where you bought this appliance.
