WIND / FAN, Jasper Startup

Family of floor or table fans that combine aesthetics and functionality, features that make them a genuine piece of furniture in their own right. Available in two sizes, S or L, they have a sinuous shape due to the hand-woven dark pulut structure. Also known as Tiger Pulut, tiger reed is a very thin variety of bark reed. Its lightness, elasticity and flexibility allow it to be woven and the reddish colour given by the bark makes it robust and durable. These fan cases are supplied with cable, switch and plug. The only available colour is the natural one as per catalogue pictures. Not suitable for outdoor use if not protected. They are supplied with cable, switch and plug. Maximum power: 5 Watt (WIND S) or 25 Watt (WIND L). On request, 110 Volt, US plug.

Directive 2002/96/EC (Waste Electrical and Electronic Equipment - WEEE): information for users. This product complies with EU Directive 2002/96/EC. The crossed-out wastebasket symbol on the appliance means that at the end of its useful lifespan, the product must be disposed of separately from ordinary household wastes. The user is responsible for delivering the appliance to an appropriate collection facility at the end of its useful lifespan. Appropriate separate collection to permit recycling, treatment and environmentally compatible disposal helps prevent negative impact on the environment and human health and promotes recycling of the materials making up the product.
