Divan Bed is anything but an ordinary bed. It is a piece that hides an alluring mystique, a bed that can transform an ordinary bedroom into wonderland. The name divan symbolizes not only bed, albeit without a headboard, but it also means beautiful in Bosnian, which this bed truly is. It represents a surprising combination of minimalism, refinement, and innovativeness. It is designed in a way that combines the warmth and tactility of wood with softness of cotton. Its softly curved, fluid headboard gives the wood an unexpected softness and tactility, which the skillfully hand-carved vertical grooves across the whole surface augment even more. The rounded legs of the bed are equally unique and soft. Divan Bed is as functional as it is beautiful: the wooden frame is made in a way to minimize the likelihood of injury, the length of the legs is adjustable to allow one to choose ideal bed height for themselves. Finally, the bed will be offered in different larger sizes to meet

CARVING PATTERN

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak’s weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.
