ZANAT

Kiam Bench

PRODUCT NAME

Kiam Bench

DESIGNER

Jean - Marie Massaud

YEAR OF DESIGN

2024

Kiam Benches belong to the Kiam collection of products designed by Jean-Marie Massaud for Zanat. They owe their special character to three unique design elements: the architectural support structures underneath created by interlocking the leg endings with horizontal support beams, the beauty of proportions characteristic of Massaud's designs and finally the hand-carved pattern around the edges of the seat, which adds subtle elegance and tactility. The benches will come in different standard sizes, making them suitable for use in lounge and dining settings. They are offered in black stained maple, walnut and oak.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak’s weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.
** 2D models, 3D models and product images can be found on the product page of ZANAT website.
