STINGRAY CHANDELIER GRANDE

Stingray Chandelier Grande is a modern luminaire inspired by the flowy form of the stingray fish, blending soft, organic shapes with sharp, angular lines to create a visually captivating light. The centerpiece of the Stingray collection, which includes two chandeliers, a table lamp, and a floor lamp, the Stingray Chandelier is designed to embody elegance through simplicity. The lampshade, with its almost floating appearance, creates a dynamic play of light and shadow, cleverly designed to conceal and reveal the light source based on the viewer's position. This innovative approach brings a flexible and artistic light experience, offering you to create a unique ambience that shifts depending on how the chandelier is observed. As an ode to Art Deco chandeliers, the metal structure and lamp arms evoke a sense of timeless sophistication. They are reimagined with a minimalistic touch, stripped of the typical excessive details for a more refined, modern interpretation. This simplicity emphasizes clean lines and understated elegance, making the design both contemporary and timeless. The combination of the sleek metal framework with the sculptural lampshade creates a harmonious balance between organic forms and architectural precision. The result is a chandelier that serves not only as a functional light source but also as an art piece, adding depth and character to any room. Whether illuminating a dining area or serving as a statement piece in a living room or hotel lobby, the Stingray Chandelier transforms interiors with its blend of fluidity, minimalism and understated details.

STINGRAY CHANDELIER GRANDE

You almost feel the movement of the Drop Chandelier. As a free-flowing sculpture, it takes in the space and insists on a life of its own - just like the floating movement of Stingray fish which is the inspiration behind the design of the lampshades.

While The Drop Chandelier collection honors modernist lamp designs of the 1950s, it also celebrates an experimental, innovative approach with its gently curving shades and 14 flexible and functional adjustable arms - creating countless options, variations and angles.

The beautifully crafted plated metal body is subsequently hand brushed and the lamp brightens up the room elegantly with a warm, pleasant light.
