Each lamp may vary slightly in size, due to the fact that it is a handmade product.

Care and Maintenance

Dust the shades lightly with a duster. Do not use sprays or any other liquid cleaning product.

When stained use gloves and and damp sponge. Make sure the lamp is not connected to the electricity. Do this carefully as some fibres could detach from the shade (this is not dangerous but can create a temporary itch)

Let it dry completely and apply a layer of lacker or hairspray to make sure friction doesn't create loose fibers. Avoid this process unless necessary. The lamps are prepared for use ahead if shipping and are resitant to most stains.

In case a stain is persistant use gloves, acetone and a piece of fabric, to clean it off and repeat the process on top.
