Mono Pendants - Set of 7 Wave

Exceptional craftsmanship. Unlike anything else.

These sculptures present the porcelain rings in vertical orientation, allowing the full profile of the ring to be seen. They are similar to the Swag Pendants, but the omission of the draping cords leads to a cleaner and more simplified aesthetic.

The number of rings, size of rings, and spacing can be customized, allowing the designer to readily create a one-of-a-kind sculpture for their client.
