Nest - Ten Rings

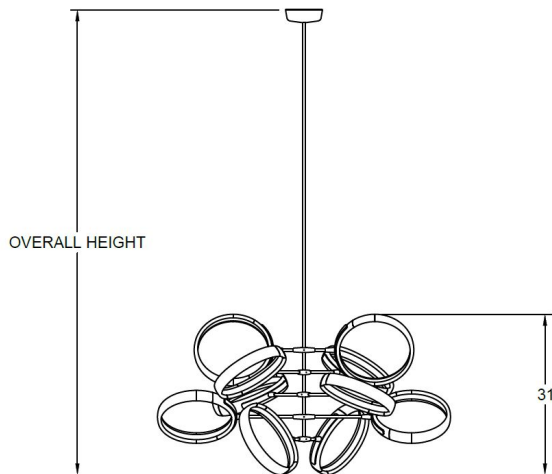

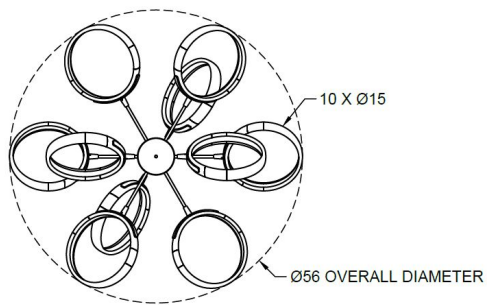

Exceptional craftsmanship. Unlike anything else.

This sculpture series is inspired by a bird's nest. A collection of disparate elements come together to create a beautiful whole. White porcelain rings are affixed to horizontal metal crossbars at various angles. Warm, dimmable LEDs are inlaid on the inside surface of each ring.

In this design ten rings are affixed to a vertical downrod, equally spaced from one another. This a dynamic piece that takes on different aesthetics with the angle of viewing.

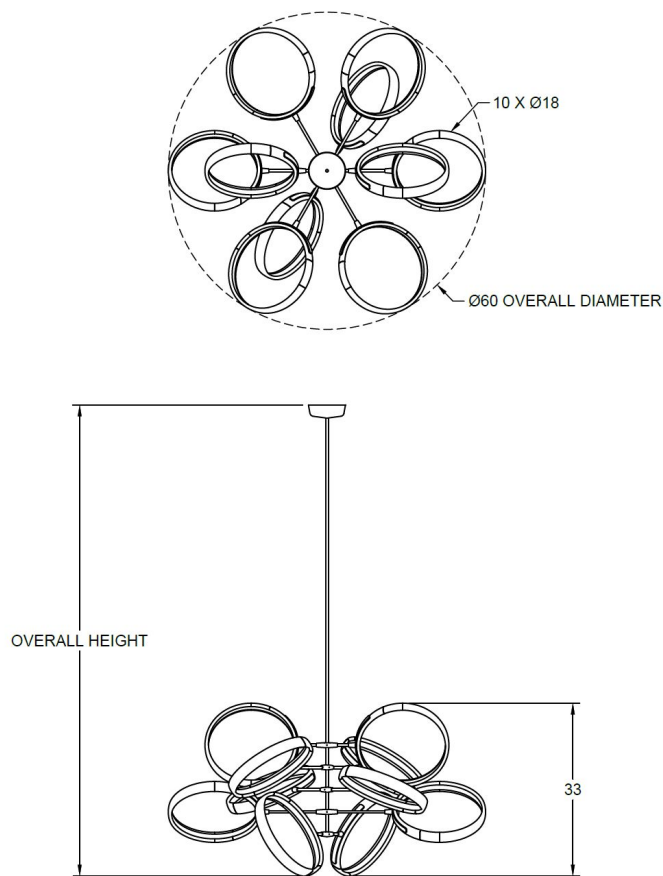

The sculptures can cast gentle candlelight on a dining table or brighten an entire room.
