Nest - Three Rings

Exceptional craftsmanship. Unlike anything else.

This sculpture series is inspired by a bird's nest. A collection of disparate elements come together to create a beautiful whole. White porcelain rings are affixed to horizontal metal crossbars at various angles. Warm, dimmable LEDs are inlaid on the inside surface of each ring.

In this design three rings are affixed to a vertical downrod, equally spaced from one another. This sculpture can be made in a linear or round format.

The sculptures can cast gentle candlelight on a dining table or brighten an entire room.
