Vine - Seven Rings

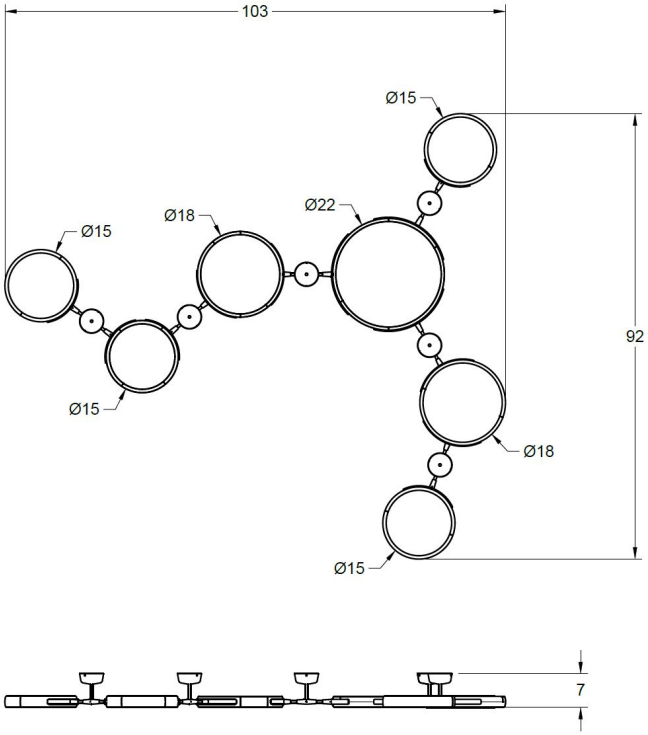

Exceptional craftsmanship. Unlike anything else.

This series of light sculptures is inspired by vines in a lush forest, alive with growth and exploring the surface of the ceiling.

In this design a central larger porcelain ring anchors the vines of six smaller rings on the ends.

Vine sculptures can have at most one junction box per sculpture. 24V power must be delivered to all ceiling mounting points, either from a remote or combination driver, or from low-voltage wiring originating from the LED drivers in the canopy mounted to the junction box.
