

Brim Dining Chair, Tubular Base

Designed by GamFratesi - 2026

ITEM NUMBER	Brim Dining Chair, (Set of 2)	62779
	Brim Dining Chair, Special Offer, (Set of 2)	62787

DESCRIPTION	Defined by a continuous outline, the Brim Chair builds on the form of GamFratesi's Beetle Chair, translating it into a more direct expression, where a softly rounded profile shapes both form and presence. A fully upholstered shell, formed around an FSC-certified® wooden core and wood from other responsible sources (FSC® C176589), developed through engineered 3D veneer, introduces a natural flexibility. This enhances seating comfort and supports an engaged posture for dining and social interaction. A slender tubular metal base provides stability with a light, understated structure, completing a composed silhouette suited to restaurants, workplaces, and other high-use environments, while remaining applicable to residential interiors
