EU Declaration of Conformity

Regulation (EU) 2025/40 — Packaging and Packaging Waste Regulation (PPWR)

Declaration No.

PPWR-001-DEC-CARTONS

Packaging Identification No:

PPWR-PACK-WBCARTON-001

Date of Issue:

4th August 2026

1. Producer Details

Full Legal Name	Wilmot Budgen Limited
Country of Establishment	United Kingdom
Authorised Representative	Michael Budgen – Purchasing Director

2. Description of Packaging

Packaging Type	Cartons – corrugated board
Packaging Function	Transport Packaging
Packaging Format	Carton
Primary Material	Corrugated board) — recycled content percentage confirmed by supplier documentation

Wilmot Budgen converts corrugated board materials into custom made cartons. The packaging products used to convert corrugated board materials into cartons are sourced from our approved suppliers who have provided the relevant Declarations of Conformity for the materials we use. Wilmot Budgen do not manufacture packaging products

EU Declaration of Conformity

Regulation (EU) 2025/40 — Packaging and Packaging Waste Regulation (PPWR)

3. Regulatory Basis

This Declaration of Conformity is issued under Regulation (EU) 2025/40 of the European Parliament and of the Council on Packaging and Packaging Waste (PPWR), which entered into force and applies from 12 August 2026.

This DoC covers the following PPWR requirements applicable from 12 August 2026:

- Article 5 and Annex I — Packaging composition and design: materials and substances requirements
- Article 6 — Restrictions on substances of concern, including PFAS
- Article 10 – Packaging minimisation requirements
- Annex VII — Technical documentation requirements
- Annex VIII — Declaration of Conformity format and content requirements

Requirements subject to phased implementation (including recyclability performance grades under Article 7, minimum recycled content thresholds under Article 8, and harmonised sorting labels) are not addressed in this DoC and will be covered by separate declarations when applicable dates are reached.

EU Declaration of Conformity

Regulation (EU) 2025/40 — Packaging and Packaging Waste Regulation (PPWR)

4. Declaration of Conformity

The undersigned hereby declares, on behalf of the producer named in Section 1, that the packaging described in this Declaration of Conformity is in conformity with the applicable requirements of Regulation (EU) 2025/40 (PPWR).

Specifically we confirm that:

4.1 Design and Composition

The packaging is designed and composed in accordance with PPWR requirements applicable from 12 August 2026. All materials used are recyclable. They may contain recycled wood fibre.

4.2 Substances of Concern — PFAS and Restricted Substances

The producer confirms, on the basis of written statements of compliance obtained from its material and component suppliers, that:

- Per- and polyfluoroalkyl substances (PFAS) are not intentionally added to any packaging material or component;
- To the best of the producer's knowledge, based on supplier declarations, no restricted substances under Article 6 of the PPWR are present in the packaging above applicable threshold levels;
- The combined concentration of lead, cadmium, mercury, and hexavalent chromium within the relevant supplied board grades is below the applicable PPWR threshold.

4.3 Packaging Minimisation

The packaging has been designed to minimise weight and volume in accordance with Article 9 of the PPWR. The primary reasoning for the conversion of our custom-made cartons is to minimise as far as possible the packaging required to ship our products.

4.4 Technical Documentation - Suppliers Declarations

Supplier statements of compliance are retained as part of the technical documentation supporting this DoC and are available upon request.

EU Declaration of Conformity

Regulation (EU) 2025/40 — Packaging and Packaging Waste Regulation (PPWR)

5. Validity and Maintenance

This Declaration of Conformity is valid from 6th August 2026 until superseded or withdrawn. Wilmot Budgen undertakes to:

- Review and update this DoC in the event of any material change to packaging design, materials, components or labelling;
- Notify customers without undue delay of any actual or potential non-compliance with PPWR requirements;
- Issue a revised DoC when required to reflect changes in applicable PPWR requirements, including phased implementation dates.
