

Land Surveying

Who We Are

WT Group’s Land Surveying service delivers more than 30 years of solid experience, merging proven surveying methodologies with state-of-the-art surveying technologies. Licensed in Illinois and Wisconsin, our Land Surveying team leverages proficiency built upon more than 80 years of combined land surveying knowledge, assisting clients in government and private business with timely, cost-effective services and solutions.

As part of WT Group’s single-source portfolio of engineering, design and consulting services, our Land Surveying practice uses an exceptional knowledge base working closely with top engineering and design professionals in the creation and execution of effective plans.

From Boundary and Topographical Surveys for Engineering Design to Construction Layout and final As-Built Surveys, WT Group’s Land Surveying practice has served a broad portfolio of commercial and municipal development projects, from two-acre restaurant sites to 135-acre campus developments. WT Group experts ensure that projects move forward smoothly. Our goal is to consistently demonstrate that all plans and projects achieve effective completion, on time and on budget.

Our team delivers more than 80 years of combined land surveying experience

We use the newest software, including AutoCAD Civil 3D and Microstation Power GEOPAK SS4

We’ve done many ALTA/NSPS Land Title Surveys, the most scrutinized product in the industry

OUR PROMISE

Precision

WT Group professionals approach every project with a commitment to precision and a focus on providing our clients with solutions to meet their goals. Every project begins with a thorough review of our client's needs, existing site conditions, design and permitting requirements, and the challenges that will need to be overcome. We then collaborate with our clients and the interdisciplinary design team to achieve an aesthetic and safe design that will withstand the test of time.

Pace

Our experienced professionals understand the urgency of completing our clients' projects on time and on budget. We combine creativity, workflow efficiency, and professional experience to complete projects at a pace demanded in the modern world. Our experience helps us to anticipate and address potential construction problems in advance to save our clients both time and money.

Passion

From humble, entrepreneurial beginnings, we have built a team with a diverse and impressive portfolio of credentials and professional experiences, both in the engineering design process and in hands-on field experience. Their talents and expertise are delivered on every project, further cementing the WT Group's reputation as a leader in the engineering, design and consulting industry.
