THE PROGRAM

Experience the thrilling world of classical music in a fresh, interactive way! In this vibrant performance of *The Young Person's Guide to the Orchestra* by Benjamin Britten, four young actors dramatize the journey through the orchestra—making each instrument come alive on stage. The magic continues with familiar classical favorites “as heard on TV” and engaging programmatic music. Interactive dialogue invites students to connect directly with the performers, turning the concert into a fun, educational adventure. This engaging production blends music, storytelling, and audience participation to spark a lifelong love of the arts.
