

## Replacing a windshield today isn't a simple \$300 repair.

These new safety features, referred to as ADAS (advanced driver assistance systems) have driven the average out of pocket windshield replacement cost to over \$1000 for virtually every new vehicle.

Beyond the cost, the process can be invasive. Annoying phone calls, appointments, waiting on parts, and sometimes multiple visits just to get back on the road.

Insurance might cover some costs, but deductibles, claims paperwork and the risk of higher premiums can turn a cracked windshield into a week-long headache.

**90%** More than 90% of new vehicles come equipped with ADAS safety features.

### Tested at speed. Trusted on Impact

ExoShield ULTRA protects your windshield before damage becomes a problem. The thick, optically clear PET construction delivers rugged durability with **zero visual distortion**.

We've tested ULTRA at highway speeds to ensure you're protected when you need it most.

*An unprotected windshield is 6X more likely to break than the same windshield protected by ULTRA.*

EXOSHIELD

# ULTRA

Impact-absorbing windshield protection designed for modern vehicles.

**A smarter way** to guard against windshield chips and cracks.

# Most windshield damage is avoidable

Damage is common. Prevention should be simple. ExoShield ULTRA uses a thick, optically clear PET to create an invisible layer of impact protection with long-lasting durability.

This durability is backed by a \*3-year limited product warranty, enabled by our Endurance Class Nanocoating for long-term performance you can rely on.

## Complete Coverage

Every ULTRA installation is backed by our industry leading \*3-year limited product warranty.

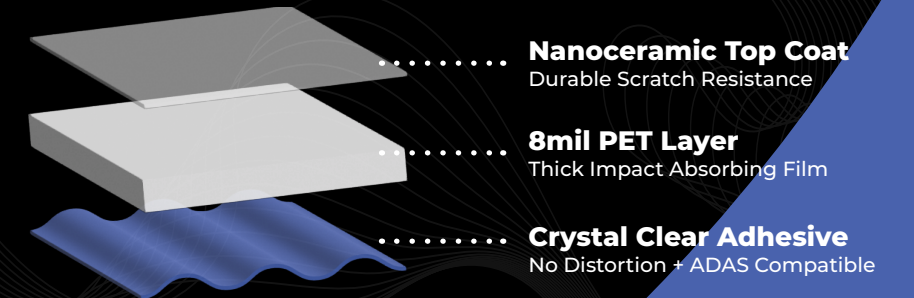

ULTRA protected clients are also eligible for our exclusive **Glass Protection Warranty\***, providing up to \$1000 in reimbursement if your windshield is to break through ULTRA.

**36 months** **3-Year Limited Product Warranty**  
Industry leading durability and support

**Installed by Certified Professionals**  
Trusted by industry experts nationwide.

## Film Construction

ULTRA is applied to the exterior of your windshield to protect against impacts, scratching, etching and sandblasting.

## Why ULTRA?

**Defends against highway speed impacts**  
Reliable protection when you need it most.

**Designed for True Optical Clarity**  
Does not affect ADAS Systems.

**8mil Single-Layer (no tear offs)**  
60% thicker for maximum impact protection.
