Equivalent to planting 200 acres of forest

100 Tons of CO₂ offset per household

THE MOVEMENT TO
CLEAN ENERGY IS
THE SINGLE GREATEST
IMPACT YOU CAN
PERSONALLY HAVE
ON OUR PLANET

A group of people are gathered around a table, looking at various documents and charts. One person is pointing at a chart on the table. The background is dark and the overall tone is professional and collaborative.

TODAY IS YOUR OPPORTUNITY TO BUILD THE TOMORROW YOU WANT

THOUSANDS
EVERY MONTH

The gig economy contributed \$1.3 trillion to the US economy in 2020, at a 20% increase from the previous year. That's a whopping 17% of the total US gross domestic product!

Arabella Anderson

We have this handy fusion reactor in the sky called the sun, you don't have to do anything, it just works. It shows up every day.

Elon Musk

Solar energy is bound to be our future. There's a kind of inevitability about it.

Jim Inhofe

At Nerd Power I love my flexible work schedule and my value driven pay scale. I no longer am trading my time for a paycheck but instead trading my value for a uncapped earning schedule that has afforded me the ability to build a beautiful life for my daughter and I.

Cygell

IF YOU LIKE NERDS,
RAISE YOUR HAND.
IF YOU DON'T, **RAISE
YOUR STANDARDS.**

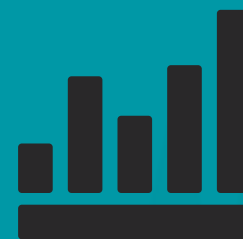

Nerd Power launched in 2015 when head Nerd and CEO Babe Kilgore envisioned a path to smarter energy for us all... Reduce before you Produce. With a clear mission, a truck load of dad jokes armed with enough brain power to make Albert Einstein perk up, he began building the smart energy company of tomorrow. Since then Nerd Power's been finding people just like you who are ready to take back control of their energy, make their Dungeons and Dragons lair more cozy, be a good human being, save a whole lot of "cashola" and together re-image how we use energy and care for our planet.

SOLAR THE SMART WAY

UPGRADE & PRODUCE

We first reduce the energy your home or business uses so that it is both comfortable and efficient. Nerd Power will then design a PV solar system to accommodate your updated energy needs. These energy reduction and production upgrades ensure that your home or business is achieving optimal energy efficiency.

MONITOR

A Nerd Power system gives you the power (pun intended) to watch your savings in real time for decades to come. With experienced engineers, unrivaled knowledge and cutting-edge technology, the team at Nerd Power has got you covered.

SAVE

The money you would have spent on your electric utility bill, is now being used to invest in your home or business. So you get to contribute to a cleaner planet by using less energy and producing clean solar power - and you get to save money at the same time - it's a win-win-win!

INCOME BY POSITION
