Calendars

We offer 12-page calendars in a variety of sizes, which are typically ready in 10 to 14 days.

We also offer several single-sided calendars in sizes from 8 x 10 to 12 x 18 or larger.

These are ready in 1 to 3 days.

Cards

We offer both double-sided cards and folded cards printed on cardstock. These cards are typically ready in 1 to 3 days.

We offer a large selection of cards on photo paper, which can be ready the same day. Sizes are 4 x 8 or 5 x 7.

There are cards for all occasions, including Christmas, New Year, Valentine's Day, Mother's Day, Father's Day, Easter, birthdays, birth announcements, graduation, and many more.

Photo Books

Photo books are the most fun way to show and share the special occasions in your life. Photo books are a great way to preserve and revisit those special moments, family vacations, and trips.

We offer free in-store tutorials on how to build a photo book, which can be as short as 10 to 15 minutes or longer, for those who are not comfortable with computers or websites.

We can build the photo book for you if you would prefer. Photo books come in numerous styles and covers.

Prestige Layflat books have heavier paper, and images can be printed through the center of the book, where the spine usually is. These are our most popular styles of books.

Photo Prints

(all sizes are in inches)

We can create prints of any size from locket size up to 44 x 150 inches.

Standard prints are standard-sized prints ranging from 2 x 3 up to 8 x 12, and are typically ready the same day. Wide-format prints are typically ready in 3 to 5 days.

All prints are done on high-quality photo lustre paper; glossy, matte, and other specialty papers are also available for some sizes – call for details. Contact our store for any custom-sized prints.

Posters & Collages

See our *Posters & Collages* section under Photo Products on our website for a selection of 100+ pre-built templates ranging in sizes from 6 x 6, up to prints 24 x 36 or larger.

Prints on Canvas

Canvas prints differ from standard prints as part of the image is often ‘wrapped around the edge’ of the print. This feature will, in many cases, change the look of the image. We recommend visiting us in our store for the best result if you are not familiar with canvas prints. We offer multiple edge treatments such as gallery wrap, mirror wrap, and custom edge.

Custom sizes are available as well as different types of canvas. Canvas prints are typically ready in 7 to 14 days. Below is a list of some of the more common sizes and prices.

Prints on Metal

Prints on metal can be created in sizes from 4 x 4 up to 40 x 60.

Smaller sizes can be produced with a stand on the back for display on a shelf or desk.

All sizes can be produced with a bracket to hang on a wall.

Metal prints can be ordered without a stand or bracket and custom-framed.

Metal prints are typically ready in 7 to 10 days.

Floating Metal

Floating metal is a very decorative way to present a unique image in three dimensions.

Floating metal pricing is the price of the two metal sizes with wall brackets, less 15%.

See Floating Metal Art products on our website for details.

Prints on Plaque

We offer many options for plaque mounting. Choose your favourite photo, sketch, work of art, or special document and have it mounted on a plaque.

Call one of our stores for details and pricing.

Wall Clings/Art Peel

Wall clings are repositionable prints that can be stuck to walls and removed without any damage. Great for decorating kids' rooms or college dorms.

These prints are typically ready in 3 to 5 days.

These are like stickers with your picture or images printed on them.

Custom sizes are also available.

Print Scanning

We can digitize loose photos, photos in albums, as well as full photo album pages, including handwritten notes.

Our scanning resolution settings are: 600 dpi (dots per inch), 1200 dpi, and 2400 dpi. 600 dpi is for the economy-minded and is best suited for viewing on a computer screen or device.

1200 dpi is our recommended setting as it allows for prints to be made up to two or three times the original size. Our service includes basic colour correction, cropping, rotation, and basic file renaming/numbering. Additional colour enhancement and minimal dust removal are also available (+ 15%).

Film Developing and Scanning

We are now proud to offer the development and scanning of film. We can develop 35mm, 120, 220, 620, 126, 828, and we've just added 110!

We cannot develop APS or 127, 116, or 8 or 16mm cinema film. We also cannot do ECN-2 development.

Push & pull services are available at an additional cost per roll. We accept push/pull for single B&W rolls but C-41 or E6 must come in groups of 6.

E6 development has an additional cost per roll and will take longer as we need enough rolls to fill a tank.
