

DENTAL PROTECTION GROUP

BUILD GENERATIONAL WEALTH VIA DENTAL WARRANTIES

Make Your Practice Stand Out From Competition

Although you put in a lot of effort to gain the trust of your patients, they have an option to choose another dentist. Standing out from competition is the key to success. Offering a 5 year warranty on the dental procedures is the secret sauce you were looking for!

Increase Patient Retention

Selling a dental warranty means that each patient has to come back every 6 months for a check-up in order to keep the coverage. This approach insures a steady flow of patients, builds trust, and increases patient acceptance of future dental procedures.

Eliminate Negative Reviews

No need for stressful conversations and negative reviews. Get paid for a redo/repair the same day. Since no money out-of-pocket is required the patient will be more than willing to leave a glowing review for your practice.

Increase Treatment Plan Acceptance Rates

Dental procedures are not cheap; providing a 5 year Limited Warranty will increase treatment plan acceptance rates.

Simple Coverage

We make it simple for both the patient and the dentist. Each dental procedure is covered up to the original charge. No ifs or buts!

Nationwide Coverage

Our goal is to drive patients back to your dental office for both hygiene check-ups and redo/repairs. But life happens and if the patient is more than 100 miles away he or she could go to any dental office nationwide.

Additional Revenue Source

We profit share with the dental practice all the money left over after claims are paid. Receive a check on an annual basis or enjoy growing generational wealth in a tax-friendly environment.

Access To Capital

Use the money left over after claims are paid to grow your business, remodel your practice, pay off student loans, purchase dental equipment, buy out a partner, or buy a Ferrari.
