

# The World's Smartest Online Scheduler for Dentists

Designed for the Most  
Complex Practice Schedules

## Schedules Directly Into Your Practice Software

Integrates with the majority of dental practices' software, offering real-time appointments directly into your schedule for seamless operations.

## Smart Recare Scheduling

Automatically detects and schedules patient exams and cleanings, assigning appointment durations and providers based on your standard of care.

## Split-scheduling for Exams and Cleanings

Offers customized appointment lengths to create perfect scheduling for Doctors and Hygienists, maintaining a tight schedule with no downtime.

## Intuitive Family Scheduling Made Simple

Facilitates family scheduling in one go by finding suitable slots for all members, simplifying the process and saving patients time.

## Optimized Practitioner Scheduling

Optimizes practice schedules by arranging back-to-back appointments, eliminating idle time, and maximizing practitioner productivity.

## Intelligent Patient Verification

Determines appointment durations by recognizing patient details like last visit, age, and more, allowing patients to schedule in less than one minute.

on Any Device

## What a few of our clients have to say...

Dr. Tony K.  
Dentist

"Since integrating FirstIn into our practice, we've seen a noticeable increase in new patients. It's been a game-changer, drawing in 30% more new patients monthly. Super easy to use and accessible. By far the best online scheduler we've ever used."

Dr. Gary C.  
Dentist

"Our patients absolutely love FirstIn. The feedback has been overwhelmingly positive—it makes booking appointments a breeze."

Dr. Kevin K.  
Dentist

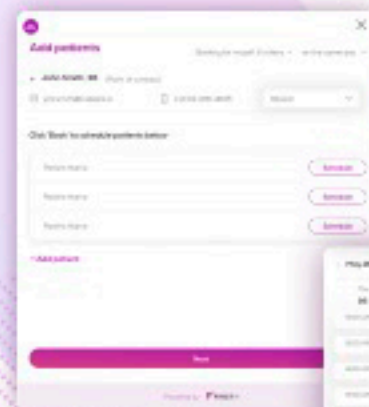

"I'm shocked at how FirstIn was able to work with our complex schedule. The customer success team was phenomenal to work with and set up our schedule almost right away. It's saved us countless hours in administrative work and our patients love it."

Sounds great, **but what's the cost?**

**\$750** onboarding fee

then just **\$249/month**
