2026 PFMA Expo–Free Vendor Sponsored Seminars

Thursday, February 19, 2026

CONFERENCE AREA A: 12:30PM – 1:30PM

Hidden Insights: How Preliminary Environmental Inspections Drive Better Outcomes

Presenter: Steve Jandrowski, Balestrieri Environmental & Development, Inc

Explore the crucial role of Preliminary Environmental Inspections in construction and demolition projects- what they are, why they matter, and the risks of skipping this vital step. Through real project examples, we'll show how early environmental insight protects building owners, streamlines planning, and sets the stage for safer, more efficient project execution.

CONFERENCE AREA B: 12:30PM–1:30 PM

The Future of Facility Protection: How Hi-Tech Water Treatment Simplifies Maintenance

Presenter: John Atlee, President, Water Doctors

Facility maintenance is going hi-tech, and water systems are leading the way. Learn how smart leak detection and advanced water treatment tools make protection easier, safer, and less labor-intensive while helping facilities avoid costly damage.

CONFERENCE AREA A: 2 PM–3 PM

The Difference Between Preventative Maintenance and Master Service Agreements

Presenter: ARC Contracting

Learn how to select the right one for you and your facility, why they are important, and how to select a contractor.

CONFERENCE AREA B: 2 PM–3 PM

All Things AHU

Presenter: Premistar

Discussion on the differences between custom designed and packaged air handlers and the best application for both.
