

AI & Robotics for Manufacturing

Presented by Hexis AI

at the

2027 PFMA Expo-

Thursday, February 18, 2027

Washington County Fair Park

3000 County Hwy PV

West Bend, WI 53095

Session 1:

8:00 AM to 10:30 AM:

AI Automation for Immediate ROI

Finding the First 10 Opportunities

Creating an AI Action Plan for Your Facility

Session 2:

10:30 AM to 12:30 AM:

Advanced AI, Robotics & Cybersecurity

Building the Factory of the Future

Fee: \$50/per seminar

Includes: 8 AM Breakfast Buffet &

(2) Expo Beverage Cards

Visit our website to view the full seminar agenda: www.pfmainc.com- Click on Training at the top of the home page.

***Note:** For multiple attendees from the same company, please email a separate form for each attendee including email address for confirmation.

PFMA Expo 2027

AI & Robotics for Manufacturing

Presented by Hexis AI

Session 1 (8:30 AM - 10:00 AM)

AI Automation for Immediate ROI

Finding the First 10 Opportunities in Your Plant

Description

Artificial Intelligence is no longer a future technology, it's a competitive advantage available today. This session is designed specifically for manufacturing leaders who want practical ways to reduce administrative work, improve productivity, and make better operational decisions.

Attendees will learn:

- What AI actually is (without the hype)
- Where manufacturers are already saving time and money
- Identifying repetitive tasks ready for automation
- AI for documentation, SOPs, quality, maintenance, purchasing, scheduling, and engineering
- How to estimate ROI before implementing AI
- Creating an AI Action Plan for your facility

Takeaways

- Manufacturing AI Opportunity Worksheet
- ROI Calculator
- 30-Day AI Action Plan
- List of recommended AI tools

Target Audience

- Plant Managers
- Operations Managers
- Engineering Managers
- Continuous Improvement
- Owners
- Production Supervisors

Session 2 (10:30 AM - 12:00 PM)

Advanced AI, Robotics & Cybersecurity

Building the Factory of the Future

Description

Once you've identified opportunities, the next step is implementing AI responsibly and securely. This advanced session explores how AI integrates with robotics, industrial automation, software development, and cybersecurity to create measurable operational improvements.

Topics include:

- AI-assisted software development
- AI-powered robotics
- Computer vision and machine learning
- Predictive maintenance
- AI for quality control
- Cybersecurity considerations when deploying AI
- Responsible AI governance
- Future trends in manufacturing AI

Takeaways

- AI Implementation Roadmap
- Robotics Readiness Checklist
- Cybersecurity Best Practices
- AI Vendor Evaluation Guide

Learning Objectives

Participants will leave able to:

- Identify high-value AI opportunities in their facility
- Understand where AI delivers immediate ROI
- Build an AI adoption roadmap
- Evaluate AI tools with confidence
- Understand cybersecurity risks
- Prepare their workforce for AI adoption

AI & Robotics for Manufacturing: Practical Strategies for Immediate ROI

Discover how manufacturers are using Artificial Intelligence today to reduce costs, improve productivity, automate repetitive tasks, and gain a competitive advantage. Join Hexis AI for two hands-on sessions covering AI fundamentals, practical automation opportunities, robotics, cybersecurity, and advanced AI applications. Leave with actionable tools, worksheets, and a roadmap you can begin implementing immediately.

Agenda

Time	Topic
8:00-8:30 AM	Breakfast & Networking
8:30-10:00 AM	Session 1 - AI Automation for Immediate ROI

Time	Topic
10:00-10:30 AM	Break / PFMA Expo Showroom Floor
10:30 AM-12:00 PM	Session 2 - Advanced AI, Robotics & Cybersecurity
12:00 PM onward	Showroom Walk & Vendor Engagement
