RE: Reciprocal Tariff Pause set to End July 8th

Dear Valued Client,

Almost 90 days after the President authorized the 90 days PAUSE on higher country rate reciprocal tariffs, some countries have made progress and some have made deals.

As July 8 approaches, there is talk from the President indicating that some of the reciprocal tariffs will go back into effect for countries that have not worked on a deal.

Additional updates will follow once they are available.
