RE: President Extends Trade Talks with Mexico

Dear Valued Client,

The President has posted on Truth Social that Trade Talks with Mexico will be extended for 90 days.

The President stated that because of the complexities of a deal with Mexico, "We have agreed to extend, for a 90 day period, the exact same deal as we had for the last short period of time, namely that Mexico will continue to pay a 25% fentanyl tariff, 25% tariff on cars, and 50% tariff on steel, aluminum, and copper."

For the next 90 days, trade with Mexico will continue as it has been.
