The "Salumificio Corti", an artisan firm specialized in the production of typical Tuscan salumi, was opened soon after World War II. In 1991 the Corti family transformed the firm into a Ltd and changed its name into "Chianti Salumi Srl". In the heart of the Chianti hills there are two modern factories, one for the production of cured meats and the other for slicing and packaging, at the highest technological level, and production, nonetheless refined and skilled.
