

Dear Figot Advisory Families,

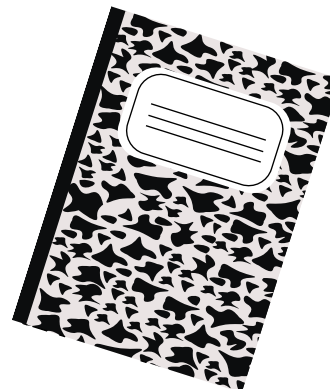

Happy first month of school! It was wonderful to talk with everyone during Open House last week and I have been so much fun learning more about advisory students, both new and old. During our first week, we played our traditional inaugural game of I'm Going on a Picnic, where Thomas declared that he would bring turbulence, Kylie opted to bring kangaroos, and Evelyn, naturally, is bringing along and Elvish sword (or perhaps even an Elvis Eldritch Elvish sword). We also engaged in some Jackbox games during our hour of advisory on Friday, where Annika dominated much of the competition as she invented a wall to help people always have headaches. Needless to say, we've started the year with a lot of laughter and comradery, which is without a doubt the best way to kick off a school year!

I normally fill in the top section of our newsletters with photos from our advisory events and shenanigans, but I haven't had the opportunity to take any yet. So instead, I've included some pictures from my trip to Mackinac over Labor Day weekend. The weather and the scenery was absolutely gorgeous and I had the most beautiful time with my friends. I hope that everyone has also had similarly lovely summer experiences and that the loveliness continues into the autumn!

-Ms. Figot
