Important Information

FOCUS OF THE MONTH: WHOLE CHILD

At CSPA, we believe that every child is unique, full of promise, and capable of amazing things. That's why we center our work around the whole-child approach. For us, education is not just about grades—it's about nurturing hearts and minds. We strive to create a school community where students feel cared for, understood, and celebrated for who they are. With strong relationships, social-emotional learning, and resources to support well-being, we make sure every student has what they need to flourish.

By focusing on the whole child, we help students grow into confident, resilient, and compassionate individuals who are prepared for both the challenges and opportunities ahead. At CSPA, our commitment is to walk alongside students on their journey—not just as learners, but as people—equipping them with the skills, character, and confidence to thrive in school and in life. Together, we're building not only bright futures, but also a community of hope and possibility.
