Work Ethic

Work ethic is essential for high school students as they approach finals week and begin preparing for the next semester. A strong work ethic helps students stay focused and organized, allowing them to manage their time well and meet deadlines with confidence. It also builds responsibility, a skill that supports students all throughout life.

By strengthening their work ethic, students are better prepared to do their best on finals and develop habits that will serve them well in the future!

Mr Minner's Message

Humans are unique, in part, because of our ability to make conscious decisions. In particular, the habit of choosing to do something you “don’t feel like doing” is a large part of growing up and becoming an adult.

Doing your homework first;
Cleaning up after yourself;
Choosing to keep a clean work area;
Keeping yourself under control;
Regulating your emotions;
Choosing kindness;

All of these virtues represent the best in humanity, and they are the sort of choices you can start making TODAY, to be the best person you can be in the long run.
