

SUE Technician I

Goodbee is looking for self-motivated individual to join our Subsurface Utility Engineering team. The position is entry-level and will report to the SUE Field Manager and coordinate with the Safety Manager and project design leads. This position has opportunity for growth with demonstrated successes. Do you like...

- working outdoors and solving problems?
- using top of the line equipment and time-saving apps?
- cross training with other disciplines and working as a team?

Job Duties

- Designating and documentation all utilities with electromagnetic equipment, Leica scanners, GPR, and other tools.
- Observing and documenting utility test holes.
- Set survey control, measure and survey maintenance hole inverts, collect utility feature data, and process in Trimble business center.
- On site coordination with traffic control and excavator vendors.
- Majority of work is within front range and may also require some in-state overnight travel.
- Ability to work in both urban and rural environments, in a variety of weather conditions. Overnight shifts or week work may be occasionally required based on permit conditions.
- Responsible for operating, calibrating, maintain, and safe-guarding assigned equipment, including fleet vehicle.
- Must adhere to company safety policies
- Professional interaction with landowners, businesses, clients, and other members of the public, while performing job-specific tasks.
- Independent work may be required under the Field Manager's supervision, direction and coordination.

Required Skills

- 1- 5 years of experience locating underground utilities using a variety of geophysical equipment.
- Application of ASCE 38-22 and/or ASCE 75 preferred.
- Understanding of survey processes and Trimble equipment preferred.
- Flexibility to work independently or in a team environment.
- High level of attention to detail
- Strong oral and written communication
- Basic to mid-level computer and software skills
- Valid driver's license
- Ability to pass a drug test and background check.

Educational Requirements

High School Diploma

Why Goodbee & Associates?

Goodbee & Associates is a well-respected small business providing subsurface utility engineering, utility coordination, and utility design on public infrastructure projects in Colorado for over 25 years.
