

# Yendarra Primary School

## POLICY

## FOOD SAFETY

### **RATIONALE**

The Yendarra School Board recognises the need to adopt and maintain safe practices for the preparation and storage of food.

### **GUIDELINES**

The school may provide food as part of a lesson, or on special occasions. Any food provided by Yendarra School is safe to eat. We meet food safety guidelines by:

- following recommended health guidelines for handwashing
- following the 3 Cs:
  - Clean: preparing food in a hygienic environment
  - Cook: ensuring food is cooked properly
  - Chill: storing and transporting food appropriately
- taking extra care in hot weather and with high risk foods.

If Yendarra sells food we may also be required to register as a national programme or to register a food control plan under the Food Act 2014.

If selling food for fundraising activities, we follow food and safety guidelines and register under the Food Act if required.
