3. The board, through the principal, will require that all activities of the school are open to every enrolled taura regardless of gender, ethnicity or physical disability.
4. The board, through the principal, will balance individual taura special needs/requests with the availability of appropriate staff and capability as well as the impact on other taura.
5. The board may be kept informed on the identification processes used for taura or groups of students who have special needs, if the principal deems this necessary.
6. The school programme will reflect the inclusion of all students with special needs, while factoring in point 4 above.
