TABLE OF CONTENTS

Purpose of this guide

This guide is designed to provide information and guidance to organizations, groups, municipalities, or individuals who are applying for funding under the Reaching Home Rural and Remote Newfoundland and Labrador Funding Stream.

All proposed projects under the Reaching Home Agreement must be completed no later than**, March 31, 2026.**

This document is intended to:

A. describe the program and the roles and responsibilities under Reaching Home; and

B. guide organizations in completing the application and providing other supporting documentation to the Community Entity to seek funding.

1.   Program Description

1.1   Reaching Home Overview

Reaching Home aims to prevent and reduce homelessness across Canada. It does so by developing partnerships that contribute to a sustainable and comprehensive continuum of supports to help those who are homeless or at imminent risk of homelessness move towards self-sufficiency. It mobilizes partners at the federal-provincial/territorial and community levels to address barriers to well-being faced by homeless individuals and those at risk.

Reaching Home recognizes that the first steps toward self-sufficiency are to reduce individuals' risk of homelessness and to ensure that they attain a stable living arrangement. Housing services focuses on moving those who are chronically or episodically homeless from the streets or homeless shelters directly into permanent housing. Permanent housing is best complemented by the provision of services to assist clients in sustaining their housing and working towards recovery and reintegration into the community. While Housing services remain the model supported by the Government of Canada, under the modernized federal homelessness program, communities now have more flexibility in how they use their funding to meet local needs. This includes the needs of vulnerable populations such as young people, LGBTQ2 communities, women fleeing violence, racialized communities, veterans, and persons with disabilities.

Community-based projects provide support to help ensure that people who are homeless and those at imminent risk of becoming homeless can stabilize their circumstances and move beyond emergency needs. Once in stable housing, other supports can be introduced as required to improve health, parenting, education, and employment outcomes. As a result, communities are encouraged to foster the creation of longer-term solutions, especially supports and tools to help develop stable living arrangements and facilitate economic integration for homeless individuals.

1.2 Direct Outcomes

Reaching Home is designed to support the goals of the National Housing Strategy, in particular, to support the most vulnerable Canadians in maintaining safe, stable and affordable housing and to reduce chronic homelessness nationally By March 31, 2028, Reaching Home will contribute to the achievement of the following direct outcomes:

- **Development of integrated and comprehensive outcomes-based programs:** Permanent housing is complemented by the provision of services to assist clients in sustaining their housing and working towards recovery and reintegration into the community. Since its renewal on April 1st, 2019 the Government will work with communities to develop and deliver data-driven system plans with clear outcomes. This new outcomes-based approach will give communities greater flexibility to identify, test, and apply innovative solutions and evidence-based practices that achieve results for vulnerable Canadians. These objectives support the National Housing Strategy target of a 50 % reduction in chronic homelessness as well as prevention-based outcomes that stem the flow of at-risk communities into homelessness.

Please view the Housing First Toolkit created by the Mental Health Commission of Canada and the Homeless Hub for more information.

http://www.homelesshub.ca/solutions/housing-first/canadian-housing-first-toolkit

- **Partners are engaged:** Through community and strategic partnership development, as well as knowledge development and dissemination, Reaching Home serves as a catalyst for partnerships at the community level, between governments, and across the federal government. Through its role as a catalyst, Reaching Home increases partners' involvement in Reaching Home-related activities, aligns efforts and priorities, and maximizes the contributions of all stakeholders. Through the engagement of partners, Reaching Home facilitates the development of a seamless continuum of supports and services. Partners include key stakeholders within communities, municipalities, Aboriginal organizations, provincial and territorial governments, federal government departments and agencies, and research bodies, among others.

- **Communities have the means to address homelessness:** Through the Reaching Home support of community planning and priority setting, data development and coordination, partnership development, as well as through ensuring that funded projects meet identified priorities, communities have the resources and understanding to target homelessness supports and services to the areas of greatest need based on local circumstances.

Please view the Homelessness Glossary for Communities Housing as a reference tool provided by the Homelessness Learning Hub.

homelessnesslearninghub.ca/wp-content/uploads/2024/04/Homelessness_Glossary_for_Communities.pdf

- **Investments are strategic and aligned**: Through the administration of contributions, development of partnerships and associated tools, Reaching Home invests funds in a manner that targets the greatest needs and affected client groups while ensuring that those investments complement those of other stakeholders and partners.

- **Enhanced understanding of homelessness**: Through results reporting and analysis, and knowledge development and dissemination, the federal government, partners and stakeholders will have access to the information required to: increase understanding of the causes of homelessness; increase the capacity to correlate factors impacting housing stability; better understand the services required and available to address homelessness; and create innovative approaches and best practices to address the unique needs of homeless people and those at risk of homelessness.
