

## Features:

2' - 4' - 8' Linear Fixture lengths  
 Black and White finishes  
 Suspended/Surface/Wall mounting available  
 PS Frosted lens standard (additional options available)  
 Indirect/Direct switch selectable distribution Integrated plug-in connectors for sleek designs

## Dimensions: Selectable CCT:

2.75" W x 3.15" H    3500K    4000K    5000K

## Fixture linking:

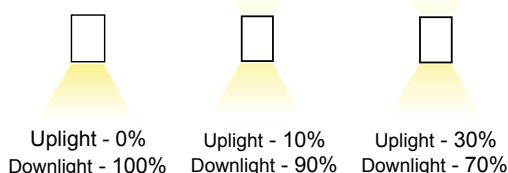

Max. linkable quantity

Down Linear	2FT	4FT	8FT
AC120V	18	9	5
AC277V	40	20	10

Up / Down Linear	2FT	4FT	8FT
AC120V	12	8	4
AC277V	28	17	8

Linear can be gapless as long as needed using multiple power cables.

## ORDERING GUIDE

Example: SZ-ALF50W-4FT-ACP

Company Code	Fixture Type	Wattage	Size	lighting effect	ACP	optional
SZ Company Name	ALF Architectural LED Linear Fixture	25W Max 50W Max 80W Max	2FT 2' 4FT 4' 8FT 8'	Blank 115LM/W	ACP  Adjustable CCT and Power 25W: 15/20/25W 3500K/4000K/5000K 50W: 30/40/50W 3500K/4000K/5000K 80W: 50/64/80W 3500K/4000K/5000K	Blank Without Sensor MS Motion sensor (Option) EM with Emergency Driver (Option)

## Specifications

### Housing

One-piece extruded aluminum with PS Lens.

### Mounting

Pendant Mount, Recessed Mount for Drywall Ceiling, wall mount, & surface mount.

### Electrical

Standard 120V - 277V  
0-10V dimming standard with a dimming range of 100% to 10%. PF > 0.9. THD <20%.

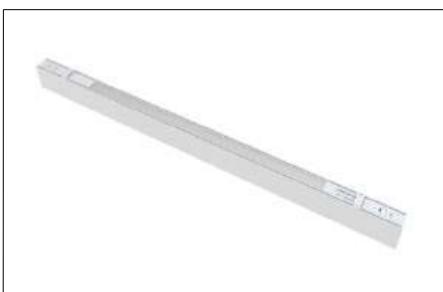

### CCT and CRI

Field selectable: 3500K, 4000K, and 5000K. CRI 80.

## Options

Standard: Integrated down lighting

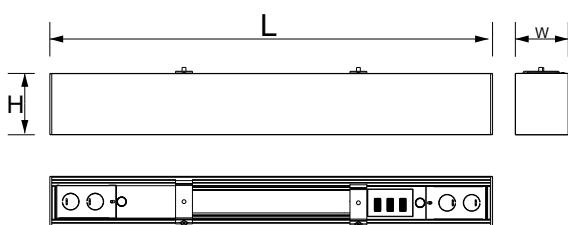

Standard: Integrated up/down lighting

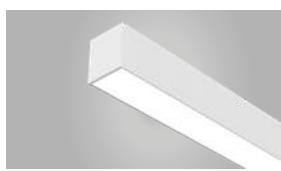

Optional: Know-down modular of Up Lighting

## Product Dimension

Model	Size
SZ-ALF-2FT	575x70x80(mm)/22.63"x2.75"x3.15"
SZ-ALF-4FT	1150x70x80(mm)/45.28"x2.75"x3.15"
SZ-ALF-8FT	2300x70x80(mm)/90.55"x2.75"x3.15"

## Finish Options

White

Black

Housing Material: Aluminum

Optics: PS Lens

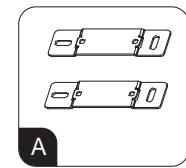

Finish: White, Black

## Surface Mounting

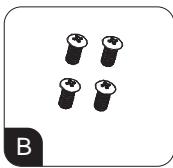

### ► Safety Instructions

- 1, Read this instruction carefully before installation
- 2, Installation should be in accordance with national and local electrical laws and regulations
- 3, Product should installed by qualified and licensed electrician
- 4, Do not install in humid places, for dry and non-humid environments only.
- 5, Always turn off the power supply before installation or maintenance
- 6, To reduce the risk of fire and overheating, make sure all connections are tight
- 7, Fixtures should not covered with thermal insulation pads or similar materials at any circumstance
- 8, Do Not use out doors

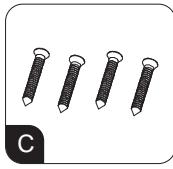

### ► Parts List:

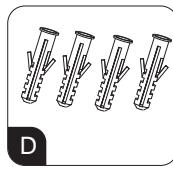

Surface-mounted Brackets

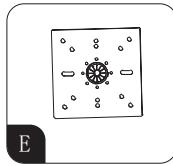

Short Screws

Long Screws

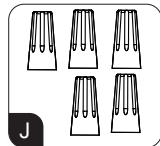

Anchors

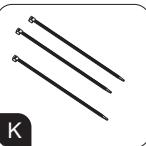

Square Plate

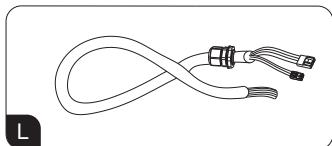

Driver's wires package(Optional)

Wire Nuts

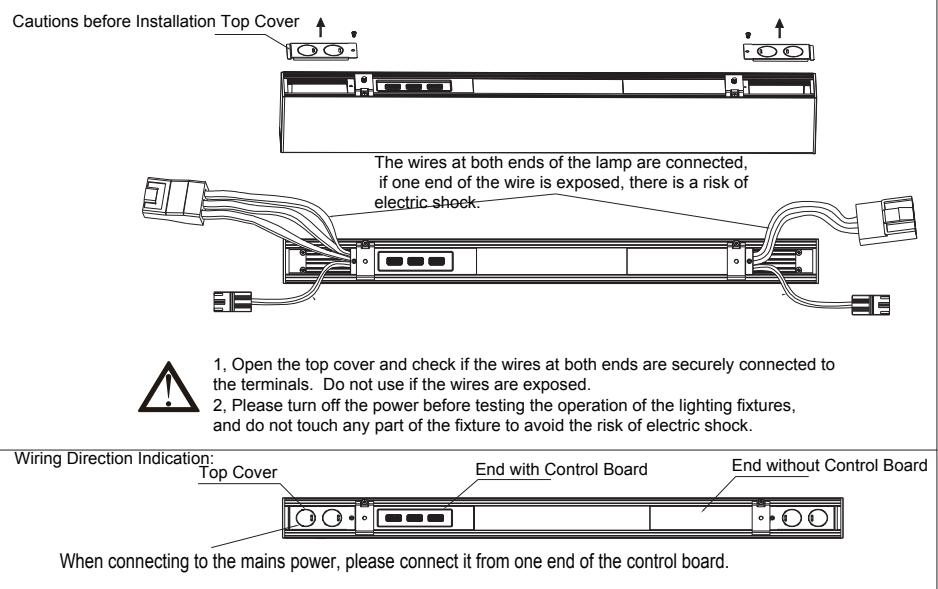

Ties

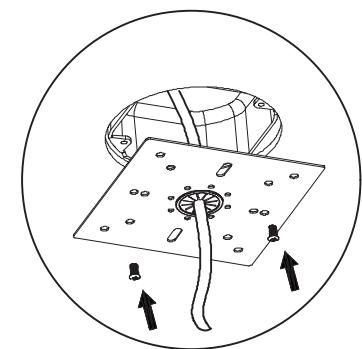

Wires accessories

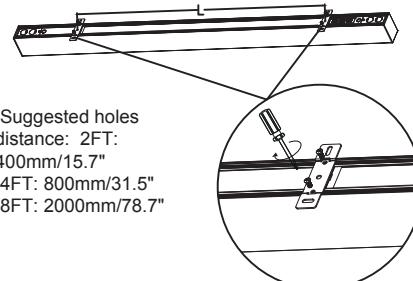

### Mounting Steps

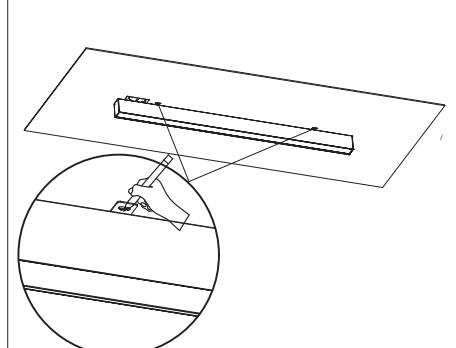

1 Attached square plate onto the junction-box with screws

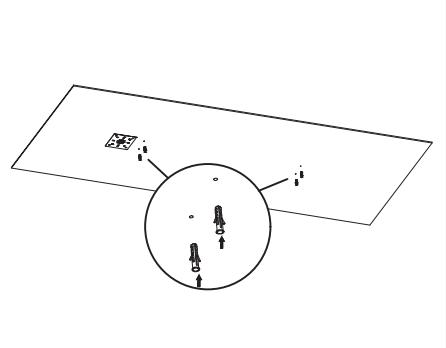

2 Fix the 2 surface-mounted brackets to fixture back with provided short screws

3 Put and press the fixture onto mounting surface, then mark the mounting positions from brackets for step 4.

4 Drill the holes according to the marks and insert the anchors

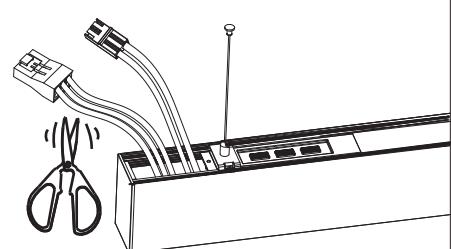

5 Cut off the corresponding terminals as required.

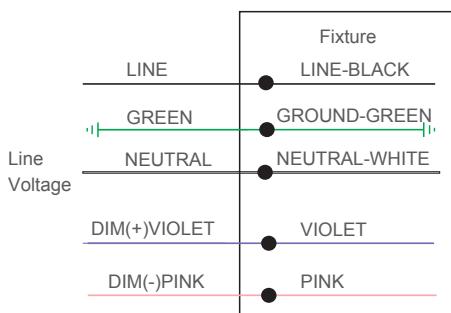

Three-position terminal: BLACK (LINE)  
WHITE (NEUTRAL)  
GREEN(GRD)

Two terminal: PURPLE (DIM +)  
PINK (DIM -)

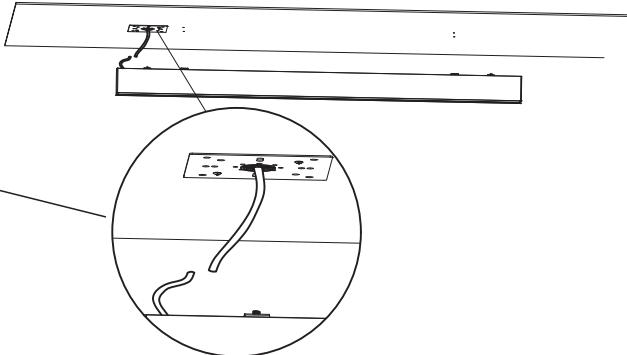

1. After cutting off the connecting terminals, the lighting fixture will no longer be able to link with other fixtures through terminals.
2. After cutting the wires, please ensure proper protection and labeling, and avoid using them for secondary wiring.

## ► Wiring Diagram

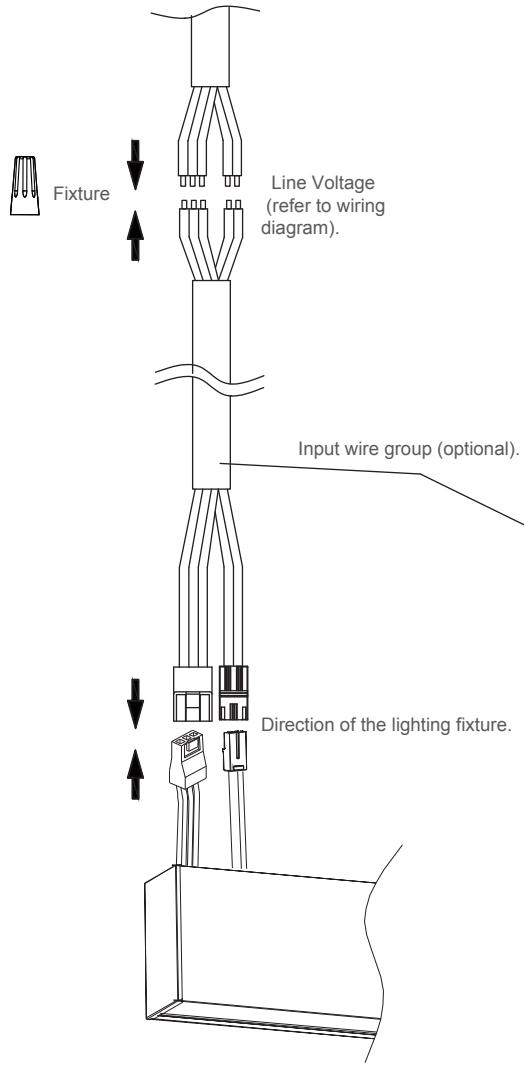

6 Make wiring according to wiring diagram , screw back the cover.

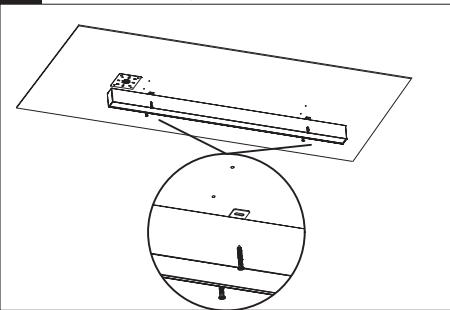

1. If dimming is not used, please separate the dimming wires with nuts.
2. Wiring must follow up the wiring diagram.
3. Remind again: Cut off the power supply before operation.

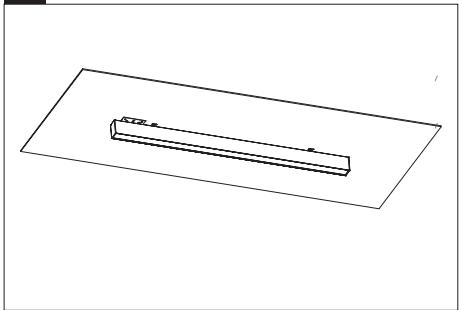

## ► Wiring Diagram

7 Secure the fixture to the mounting surface with long screws.

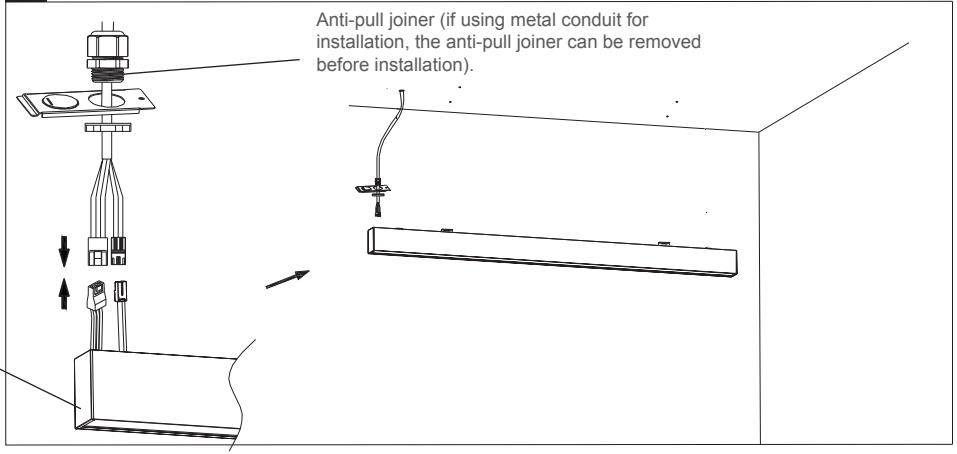

8 Installation completed.

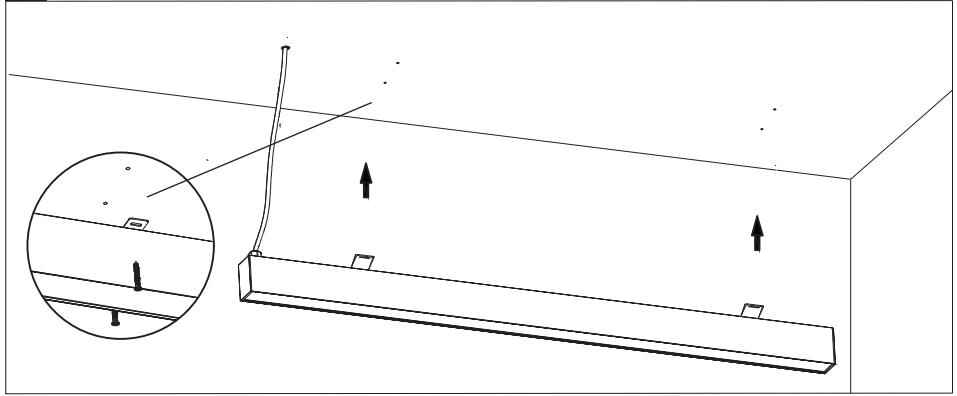

## ► Input wire group (optional).

1

2

Three terminals: neutral wire, live wire, ground wire Two terminals: DIM+ (purple), DIM- (pink)

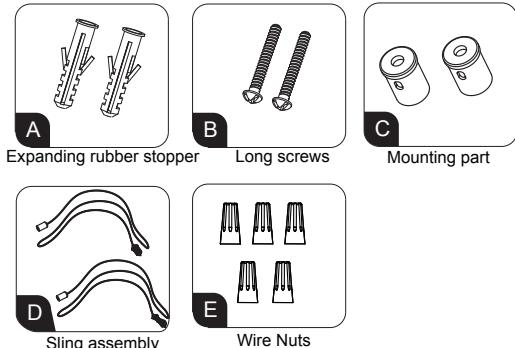

## Pendant Mounting

### Safety Instructions

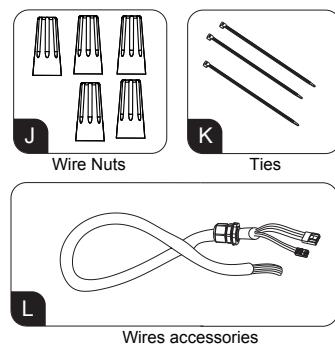

- 1, Read this instruction carefully before installation
- 2, Installation should be in accordance with national and local electrical laws and regulations
- 3, Product should be installed by qualified and licensed electrician
- 4, Do not install in humid places, for dry and non-humid environments only.
- 5, Always turn off the power supply before installation or maintenance
- 6, To reduce the risk of fire and overheating, make sure all connections are tight
- 7, Fixtures should not be covered with thermal insulation pads or similar materials at any circumstance
- 8, Do not use outdoors

N(White)

white terminal  
Wiring for connection parts

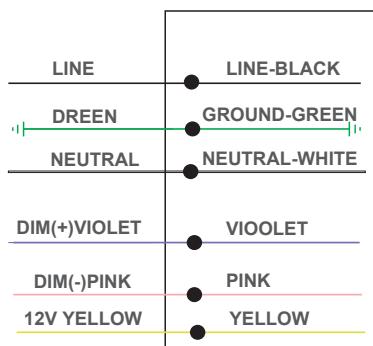

### Function description of the control board

### Mounting Steps

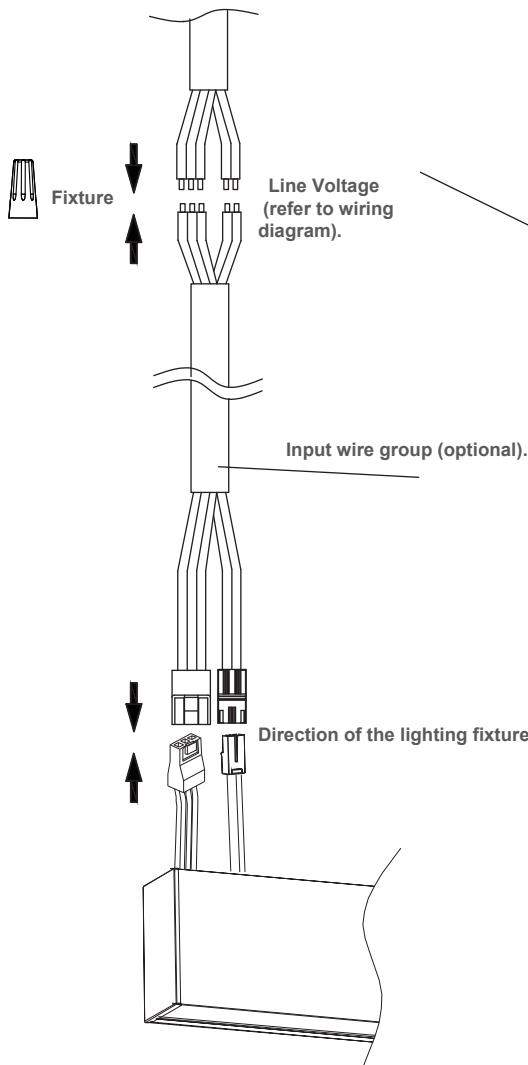

### ► Wiring Diagram

1. If dimming is not used, please separate the dimming wires with nuts.
2. Wiring must follow up the wiring diagram.
3. Remind again: Cut off the power supply before operation.

### ► Wiring Diagram

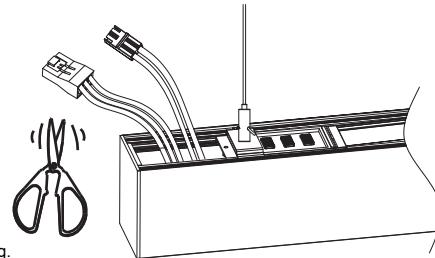

Three terminals: neutral wire, live wire, ground wire Two terminals: DM+ (purple), DM- (pink)

### 7 Cut off the corresponding terminals as required.

Three-position terminal: BLACK (LINE)  
WHITE (NEUTRAL)  
GREEN(GRD)

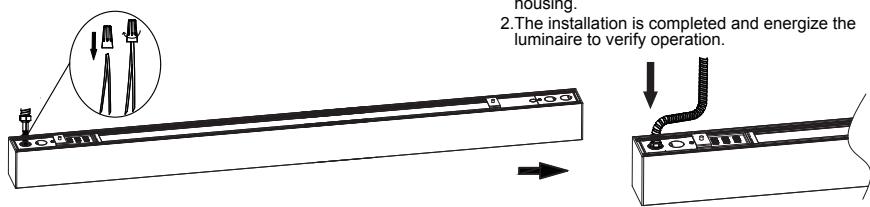

Two terminal: PURPLE (DIM +)  
PINK (DIM -)

1. After cutting off the connecting terminals, the lighting fixture will no longer be able to link with other fixtures through terminals.
2. After cutting the wires, please ensure proper protection and labeling, and avoid using them for secondary wiring.

### 8 Turn off the power and wiring by using wire nut,

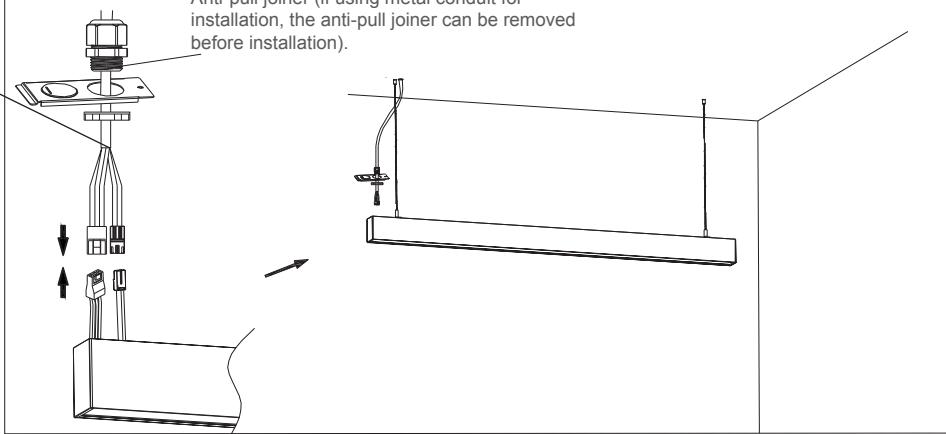

1. Insert the terminal block and wires into the lamp housing.
2. The installation is completed and energize the luminaire to verify operation.

### ► Input wire group (optional).

#### 1

Anti-pull joiner (if using metal conduit for installation, the anti-pull joiner can be removed before installation).

**Wall Mounting****Safety Instructions**

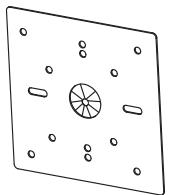

- 1, Read this instruction carefully before installation
- 2, Installation should be in accordance with national and local electrical laws and regulations
- 3, Product should installed by qualified and licensed electrician
- 4, Do not install in humid places, for dry and non-humid environments only.
- 5, Always turn off the power supply before installation or maintenance
- 6, To reduce the risk of fire and overheating, make sure all connections are tight
- 7, Fixtures should not covered with thermal insulation pads or similar materials at any circumstance
- 8, Do Not use out doors

**Parts List:**

Mounting plate A

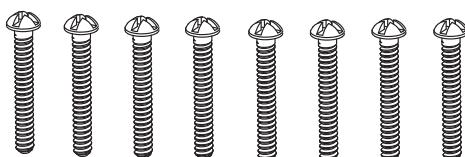

Mounting plate B

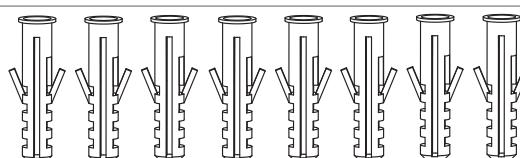

Decorative plate

Anti-stretch head

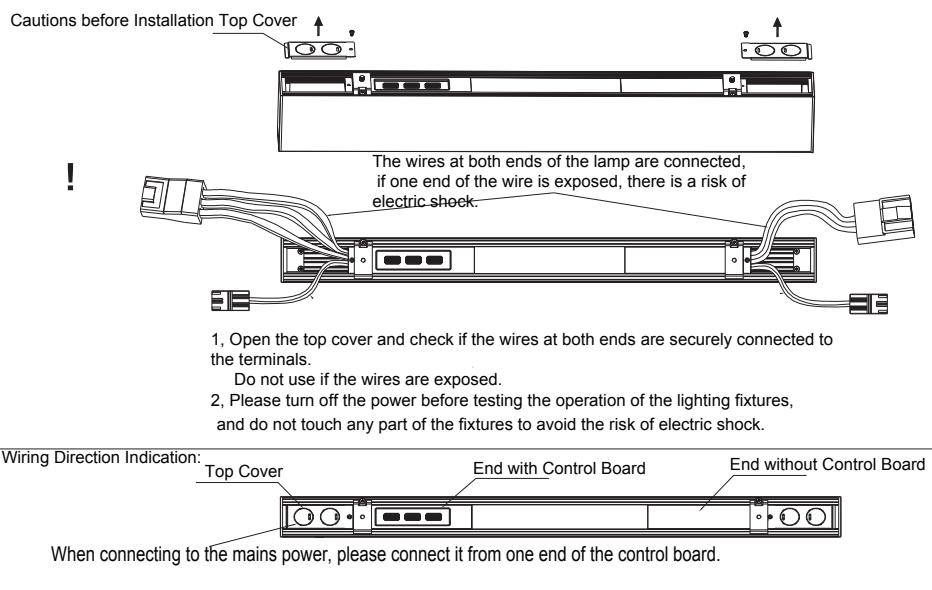

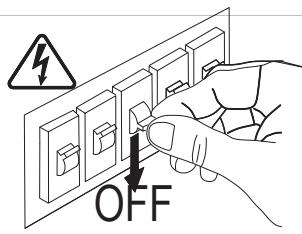

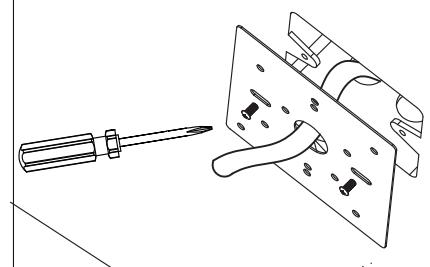

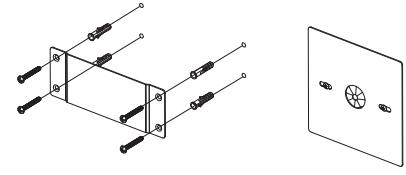

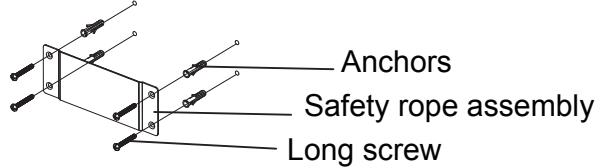

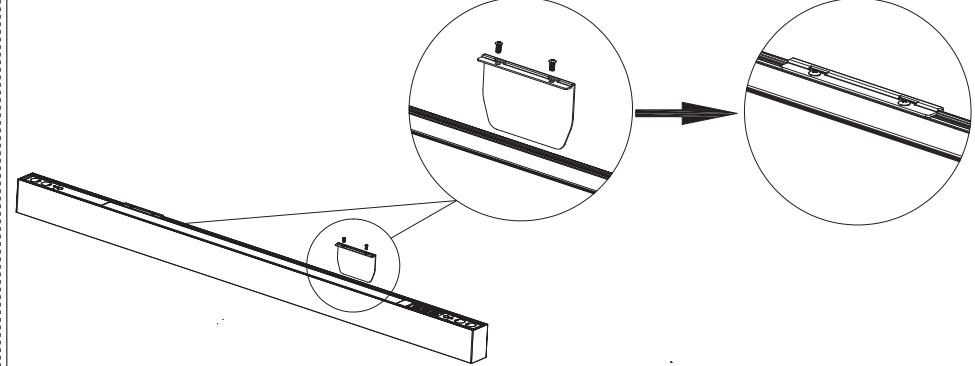

Long screw

Anchors

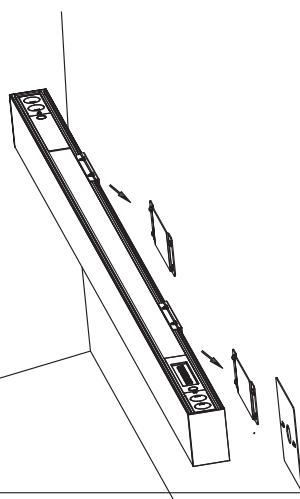

Short screw

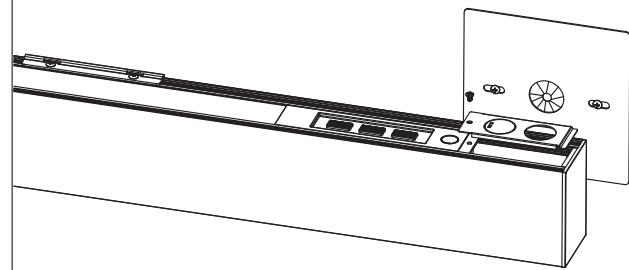

**Mounting Steps****Installation instructions**1. Turn off the power.2. Pull out the wire and lock the trim.3. Set the appropriate distance and install mounting plate A.4. Install mounting board B on the lamp body according to the position of mounting board A.

## Architectural LED Linear Fixture

5. Insert mounting plate B on the light fixture into mounting plate A on the wall.

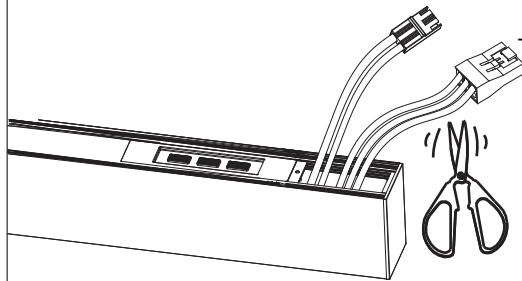

6. Remove one end screw of the lamp to pry open the wire hole.

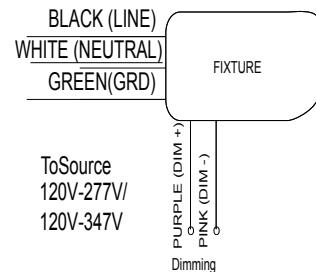

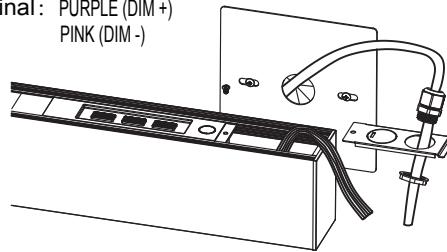

7. Cut off one end of the terminal as required for wiring.

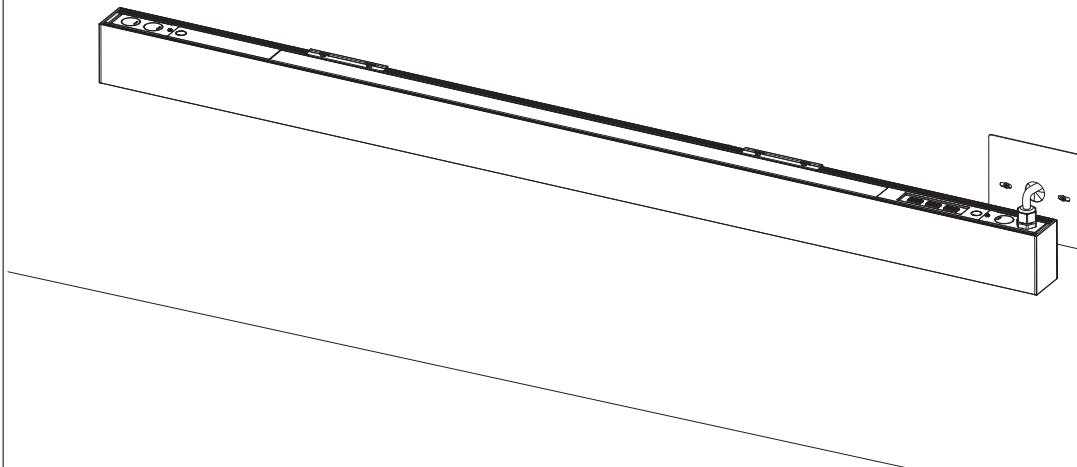

Three-position terminal: BLACK (LINE)  
WHITE (NEUTRAL)  
GREEN(GRD)

Two terminal: PURPLE (DIM +)  
PINK (DIM -)

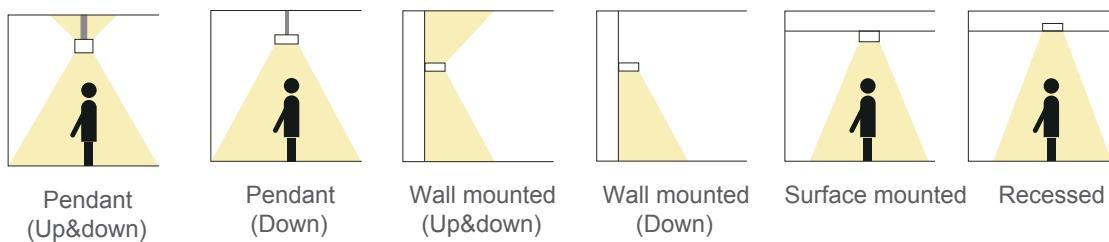

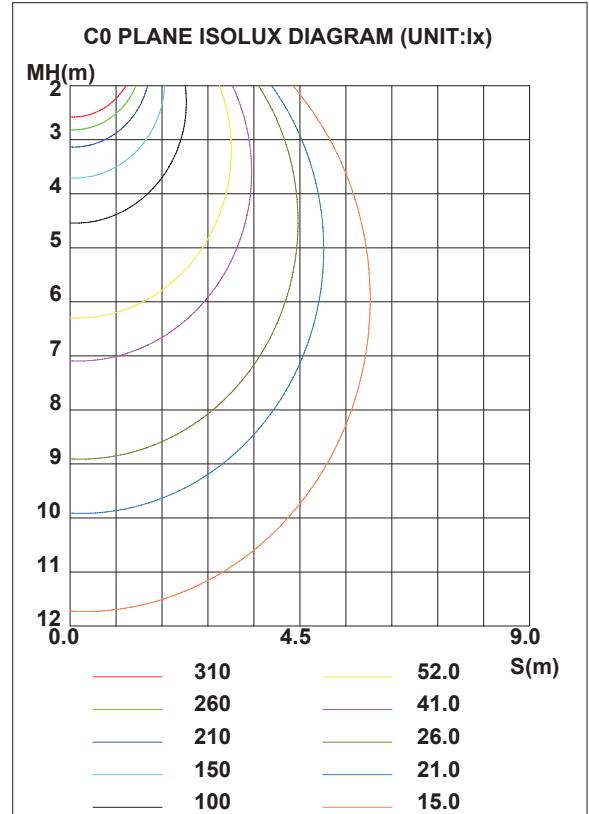

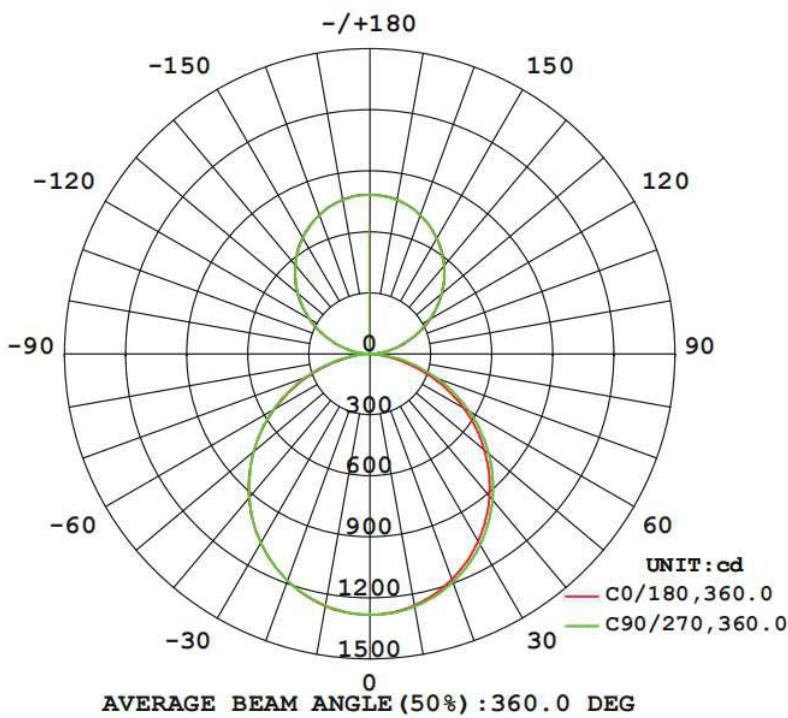

8. Installation complete.

## Architectural LED Linear Fixture

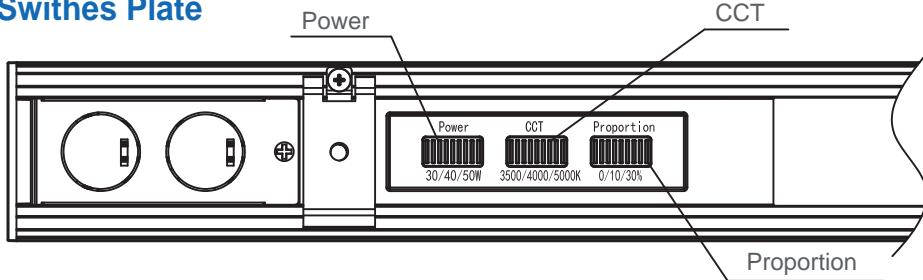

## Testing Report

Provides lighting distribution options of 70% Downlight 30% Uplight, 90% Downlight 10% Uplight, 100% Downlight.

# Architectural LED Linear Fixture

## Switches Plate

## Others

The following multiple functions can be achieved according to customers' requests

1. Remove or turn off the emergency battery when testing the luminous efficacy.
2. Available with external or built-in microwave motion sensor
3. Emergency: the power is 8W, it can still work in 1.5hrs while emergency situation.
4. Remove or turn off the emergency battery when testing the luminous efficacy.

## Accessories

### Features:

- Slim shape, easy to install
- Built-in Lithium Battery
- Self Testing
- Constant output power(Auto-sensing output within each range)
- Battery protections: over charge protection, over discharge protection, short circuit protection
- UL listed for factory and field installation-UL 924 and CSA C22.2 NO.141
- High-efficiency for CEC Compliance and US DOE.

## Emergency Driver

- Tiny PIR Sensor with/out Bluetooth-lesh, Microwave Version Interchangeable.
- Audio-Jack Classic Connection, 0-10V Dimming, with Daylight Harvesting
- Suitable for Indoor Lighting, Panel, Troffer etc.

End Cap w/sensor

Canopy (for sensor)

The microwave sensor to achieve tri-level dimming control, for same areas that require a light change notice before switch off.

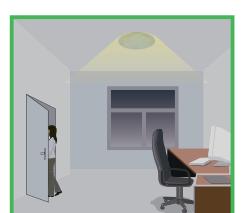

If offers 3 levels of the light Control : 100%-dimming light (0,10%,30%,50%)--off; and 2 periods of selectable waiting time: motion hold-time and stand-by time, Selectable daylight threshold and choice of detection area.

With sufficient natural light, the light does not switch on when presence detected.

With insufficient natural light, the sensor switches on the light automatically when person enters room.

People left, light still dims to 0/10%/30%/50% (options) stand-by level after the hold.

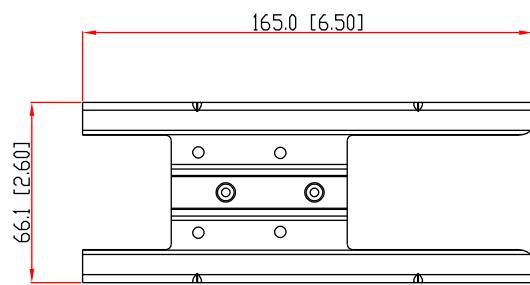

Light switches off automatically after stand-by time elapsed.
