

## Quality Policy

Advanced Plastics (South) Ltd, specializes in the manufacture of precision, thermoplastic moulded components by injection moulding, sub assembly and final assembly to customer specification.

The nature of the company's activities requires particular emphasis to be placed on the experience, expertise, reliability and quality of all staff.

The objective of the top management at Advanced Plastics (South) Ltd is to produce goods in a manner which ensures customer satisfaction, through adherence to and continuous improvement of the company quality management system according with the ISO 9001:2015 Standard.

In order to achieve this objective, it is the policy of Advanced Plastics (South) Ltd to establish, maintain and review an effective and efficient quality management system and maintain and improve an effective working environment compatible with the context and strategic direction of the company.

The QMS and company performance are monitored through a set of key performance indicators which are communicated throughout the company and reviewed through monthly management meetings to set quality objectives.

The determination of "conformity" of product to customer specification is made on the basis of objective evidence and documented information of customer and applicable requirements. Trained staff will be made fully aware of their responsibilities in relation to quality, performance and also of the need to maintain accurate documented information for retrospective analysis.
