

TORO 35 Gallon

Built for reliability, simplicity, and performance, the TORO® family of spray tanks provides an efficient solution for applying asphalt emulsions and other compatible liquid maintenance products. Designed for municipalities, contractors, and road maintenance crews, these self-contained systems require no batteries, or external power, reducing maintenance and maximizing uptime.

BENEFITS

- Easy Transport - Portable unit that is designed to be carried in the back of a ½ ton or larger truck
- Simple, reliable mechanical operation
- Rugged steel construction built for demanding job sites
- Ideal for asphalt emulsions, tack coat, and other compatible liquid materials
- Consistent spray application for professional results
- Designed for municipalities, counties, DOTs, and contractors
- Coverage area - 35 Gallon tank provides support for approx 50 pothole repairs
