FINANCIAL STATEMENT REVIEW

Mr. O'Donnell reviewed the financials through the month of November, eight months into the fiscal year. In the General Fund, there was an adjusted net loss of \$2,199,508 in the Current Year column compared to net surplus of \$2,075,253 in the previous year. Mr. O'Donnell stated that if the amount was adjusted for the continued real estate tax receipts

discussions, the amount would become a net income of \$1,282,000, a decrease of \$793,000 below last year's net income due to interest income and higher health benefits costs. Mr. O'Donnell pointed out that interest income was down \$38,414 for the month driven by a lower cash balance as well as the lower interest rates. Expenditures are all in line with the month's benchmark. Contractual expenses were up this month due to janitorial expenses but overall, all in good shape year-to-date. Commodities were down for month due to the timing of lower vehicle fuel purchases. Mr. O'Donnell is projecting an adjusted net income of \$2,527,206.

The Recreation Fund has an adjusted net income of \$1,505,667 for the current year to date, taking out the variance of the tax receipts, the net income would increase to \$2,889,106 - \$380,000 below last year, driven primarily by increases in employee related expenses and the additional security expenses needed earlier in the year. Mr. O'Donnell highlighted the strong performance of the Recreation Fund through November. Removing the timing of the tax receipts issue, year to date revenue is up approximately \$879,000. Part-time salaries and utilities expenses were up this month. Mr. O'Donnell is projecting an adjusted net income of \$1,633,683. Commissioner Berg asked for more information on the increase of program fees and Mr. Ward stated that the increase is not necessarily based on an increase of cost for classes but rather a growth in the number of participants. For example, the newly acquired dance studio has allowed for growth in the number of dancers, and the aquatics department has seen growth in the one-on-one services.

The Golf Course Fund had approximately \$115,000 in total revenue for the month of November. Year-to-date, total revenues have topped \$4,516,615, up 4% over 2024. Total Expenditures were at 74% of the budget. Two expenditures highlighted were part-time salaries at 87% of the budget and contractual expenditures were up year-to-date due to the previously mentioned additional security at the beginning of the season. Mr. O'Donnell is projecting a net income of \$1,206,791.

In the Cash Accounts by Fund, Mr. O'Donnell pointed out that the November cash balance amount of \$53,698,751.79 is before the \$7.2 million bond payment that was made in December. Interest rates continue to be lower than last year.

All facilities in the Recreation Fund continue to perform well against budget. Mr. LaFrenere noted that this report does not accurately reflect actual facility revenues and expenses and suggested revising it to create a more meaningful document, which all agreed upon.

OTHER

There was no other business.
