# The Road to Tier 2 Data-Based Decision Making

**Session**: 5I Leveling Up Our Tier 2 System: Using Data-Based Decision Making to Improve Our Tier 2 Intervention Menu

Presenters: Brooke Curtiss (University of South Florida) & Katie Conley (Boise State University)

Conference: National PBIS Leadership Forum 2025

Welcome to the track! You're part of a Tier 2 PBIS Pit Crew racing toward efficient, data-driven decision making. Use this handout to capture insights, team reflections, and action items as you progress through each checkpoint.

#### crew Setup

| Role                     | Name |
|--------------------------|------|
| Crew Chief (Facilitator) |      |
| Changer (Data Analyst)   |      |
| Spotter (Recorder)       |      |
| Gasman (Timekeeper)      |      |

# Checkpoint 1: Monitor Tier 1 PBIS Systems of Support (I Do)

Focus: Before accelerating into Tier 2, ensure your Tier 1 system is implemented with fidelity and reaching most students.

| <b>Key Data</b> : Tiered Fidelity Inventory (TFI), Proportionate Triangle, Universal Supports. |
|--|
| Fill in your team's current data:  |
| TFI Tier 1 Score:%   |
| Percent of Students Supported at Tier 1:%  |
| Tier 1 Reflection Notes:   |
|  |
|  |
| Pit Stop: What Tier 1 systems need maintenance or support?                                     |
| <b>Keep Driving</b> : What tells us we're ready to expand Tier 2 supports?                     |
|  |

### Checkpoint 2: Proactively Screen for Student Needs (We Do)

Focus: Identify students in need of additional support using multiple sources of data over time.

Data Sources: Office Discipline Referrals (ODRs), attendance, nominations, SDQ, teacher input, family feedback.

#### Record current screening tools and timelines:

| Needs         | Data Source | Frequency | Adequate |
|---------------|-------------|-----------|----------|
| Externalizing |             |           |          |
| Internalizing |             |           |          |

| Pit Stop: Where do data gaps exist?                         |  |
|---|--|
| Keep Driving: What's working well in our screening process? |  |

### Checkpoint 3: Create a Balanced Tier 2 Intervention Menu (We Do)

**Focus**: Develop or refine a balanced intervention menu addressing both internalizing and externalizing student needs.

**Key Concept**: Align interventions with behavior function — Get/Obtain vs. Escape/Avoid.

| Student Need/Function | <b>Existing Intervention</b> | Notes |
|-----------------------|------------------------------|-------|
|                       |                              |       |
|                       |                              |       |
|                       |                              |       |
|                       |                              |       |
|                       |                              |       |
|                       |                              |       |

| Pit Stop: Gaps or overlaps in interventions?            |
|---|
| Keep Driving: Interventions to pilot, scale, or refine. |

### Checkpoint 4: Base Tier 2 Actions on Decision Rules (You Do)

Focus: Use data and fidelity information to pre-decide actions for efficiency and equity.

**Example Thresholds**: 80% fidelity × 65% progress = Continue; below thresholds = Modify or Intensify.

| Decision Rules<br>Across Tier 2<br>Interventions                                      | Student Progress "Good" Individual:% of weekly points earned Group: 70%+ of students demonstrating "good" progress   | Student Progress "Questionable" Individual: 65%-84% of weekly points earned Group: 30%-69% of students demonstrating "good" progress  | Student Progress "Poor" Individual: less than 65% of weekly points earned Group: less than 30% of students demonstrating "good" progress  |
|---|--|---|---|
| Fidelity of<br>Implementation<br>"High"<br>(more than<br>85% of actions<br>completed) | <ul> <li>Celebrate with student</li> <li>Recognize and reward staff</li> <li>Reevaluate current status and identify new priorities</li> <li>Document and share success (staff, coordinator)</li> </ul> | <ul> <li>Confirm fidelity of action steps</li> <li>Continue plan and acknowledge student/staff efforts</li> <li>Identify opportunities for individual/group improvement (adaptations, supplemental supports)</li> <li>Document and share status (staff, coordinator)</li> </ul> | Continue plan and acknowledge student/staff efforts Discontinue plan and return to problem-solving at the individual and intervention level Request district support Document and share status (staff, coordinator)       |
| Fidelity of<br>Implementation<br>"Low"<br>(less than 85%<br>of actions<br>completed)  | <ul> <li>Celebrate with student</li> <li>Acknowledge staff efforts</li> <li>Determine areas of low fidelity and address barriers</li> <li>Document and share status (staff, coordinator)</li> </ul>    | <ul> <li>Continue plan and acknowledge student/staff efforts</li> <li>Boost Fidelity by</li> <li>Document and share status (staff, coordinator)</li> </ul>  | <ul> <li>Update plan and acknowledge student/staff efforts</li> <li>Confirm areas of low fidelity and solve barriers</li> <li>Request district support</li> <li>Document and share status (staff, coordinator)</li> </ul> |

Pit Stop: Where do our decision rules need refinement?

Keep Driving: What visuals or processes support faster, better team decisions?

# 

**Focus**: Reflect on the completeness of your Tier 2 systems and identify next steps for strengthening implementation.

Domains to Review: Teaming, Practices, Systems, Data.

| Domain | Strengths | Gaps | Action Steps | Who/When |
|--------|-----------|------|--------------|----------|
|        |           |      |              |          |
|        |           |      |              |          |
|        |           |      |              |          |
|        |           |      |              |          |
|        |           |      |              |          |
|        |           |      |              |          |
|        |           |      |              |          |
|        |           |      |              |          |

#### **Tier 2 Action Plan**

| Item | <b>Current Score</b> | Action | Who | When |
|------|----------------------|--------|-----|------|
|      |                      |        |     |      |
|      |                      |        |     |      |
|      |                      |        |     |      |
|      |                      |        |     |      |

| Pit Stop: What resources or supports do we need next?    |
|--|
| Keep Driving: Celebrate progress and plan your next lap! |

## Winner's Circle & Resources

Congratulations! You've crossed the finish line toward a comprehensive Tier 2 system of support!

| Strong Tier 1 foundation          |
|-----------------------------------|
| Critical Tier 2 features in place |
| Proactive screening               |
| Balanced intervention menu        |
| Data-based decision rules         |
| Clear next steps                  |

- Identify the levels of data-based decisionmaking within Tier 2 PBIS
- 2. Explore questions and decisions for PBIS teams to ask about the fidelity and outcomes of each Tier 2 intervention offered
- 3. Engage in an interactive game to practice using data to guide Tier 2 intervention and school-wide decisions
