

A Long Term Companion Receives 2026 Best of Home Care® – Top 100 Leader in Experience Award

Jenkintown, PA – February 2, 2026 – A Long Term Companion announced today that it has earned the distinguished **2026 Best of Home Care® – Top 100 Leader in Experience Award** from Activated Insights, a leading workforce and experience platform for post-acute care.

This award represents the highest level of recognition from Activated Insights and is presented to only 100 home care organizations across North America that demonstrate exceptional performance across 10 or more quality metrics.

This marks the second time A Long Term Companion has been named among the Top 100 home care providers in North America.

As a Top 100 Leader in Experience award recipient, A Long Term Companion is recognized among the very best home care providers participating in the Activated Insights Experience Management program. This achievement reflects the organization's ongoing commitment to delivering consistently positive experiences for both clients and caregivers.

"We're proud to recognize A Long Term Companion for earning the Best of Home Care® – Top 100 Leader in Experience Award," said Bud Meadows, Chief Executive Officer of Activated Insights. "This distinction is reserved for a select group of home care organizations that consistently perform at the highest level across multiple quality measures. Because this recognition is based on ongoing feedback from both clients and caregivers, it reflects their sustained commitment to exceptional care, continuous improvement, and a strong experience for everyone they serve."

To qualify for this recognition, at least 10% of A Long Term Companion's clients and caregivers were interviewed each month by Activated Insights. Over a 12-month period, the organization earned outstanding satisfaction scores across key areas including caregiver training, compassion, communication, scheduling, and client-caregiver compatibility. By using this feedback alongside industry benchmarks, A Long Term Companion continuously sets and measures goals to deliver the highest level of care and experience possible.

"Earning recognition as a Top 100 Leader in Experience is incredibly meaningful to our entire team," said Michele Kilstein, Founder and President of A Long Term Companion. "What makes this award so special is that it reflects the voices of both our clients and our caregivers. For more than 15 years, we have been committed to providing not only exceptional care, but a level of consistency, reliability, and personal connection that families can truly depend on. This recognition is a direct reflection of the compassion and professionalism our caregivers bring to their work every day."

The Best of Home Care® – Top 100 Leader in Experience Award highlights the nation's top-performing home care organizations and helps families and referral partners identify providers that have been independently recognized for quality, consistency, and trust.

"At Activated Insights, our mission is to help post-acute care organizations create experiences that exceed expectations for both clients and caregivers," said Bud Meadows. "When agencies like A Long Term Companion consistently listen to feedback and act on it, it leads to stronger teams and better care. We're proud to recognize their achievements and celebrate this exceptional milestone."
