02 Flatbed Scans

Standard Flatbed Scans — $12 / original

Photographic prints up to 12 × 17 in at 600 ppi, with basic tonal and color adjustments. Detailed correction, cropping, dust spotting, and original artwork are not included. Turnaround: 2 working days.

Custom Flatbed Scans — $20 / original

Photographs, original artwork, and suitable bound materials up to 12 × 17 in. Technician-performed color and tonal adjustments, cropping, and light cleanup. Digital images up to approximately 150 MB. Turnaround: 2 working days.

Custom Flatbed Film Scans — $30 / original

Negatives, slides, and transparencies. Technician color and density adjustments, cropping, and light cleanup. Digital images up to approximately 150 MB. Turnaround: 2 working days.

Flatbed scans include JPEG and TIFF files (Adobe RGB 1998). The 150 MB limit refers to image data before compression, not the saved file size. Additional retouching or extensive adjustments: $120/hour.

03 Digital Capture from Flat Art

High-resolution photographic reproduction of flat artwork. Pricing is based on the longest dimension of the original.

Up to 36 in	**$75**
Over 36 through 60 in	**$120**
Over 60 in	**Quote**
Capture under glass for curled / creased artwork	**+ $45**
Artwork removal from frame	**+ $45**

Includes basic adjustments and 16-bit TIFF plus 8-bit JPEG files. Turnaround: approximately 2 weeks. We do not offer reframing. Additional color matching and retouching: $120/hour, billed in 15-minute increments.

Turnaround times are estimates. Larger orders may require additional time. We’ll confirm the expected completion date when your order is placed.
