

The neXtgen Sheep Producer

neXtgen
AGRI

Farming in our hearts, **science in our heads.**

Go neXt level.

Running a sheep enterprise means working with a lot of uncertainty. When it comes to genetics, neXtgen Agri brings clarity and conviction. Partner with us and you'll never second-guess your ram team, your data or your direction. Just great science and great people, giving you the confidence to make the right calls.

A clear plan of action

neXtgen
AGRI
neXtSelect

neXtgen
AGRI
neXtPlan

This is the heart of what we do. Together we get clear on where you want your flock to go, then make sure every decision moves you there. We clarify your breeding objective, sharpen your flock policy and build a **neXtSelect** custom index that takes the guesswork out of comparing rams. We keep it current as your flock and your goals evolve. We also co-design a **neXtPlan** data-recording calendar so you never miss collecting the data you need.

Ram team management

Your rams shape the next generation. Being intentional about selecting your ram team is worth getting right. We review your team with you every year, with the help of your custom **neXtSelect** index, retiring the ones no longer suited to your goals, and guiding your selection and purchasing so each new ram fits your direction. Every dollar you spend goes toward a flock that's genuinely improving.

Replacement ewe selection

neXtgen
AGRI
neXtRank

neXtgen
AGRI
neXtRecord

Make better ewe replacement choices, and your whole flock moves forward faster. We make sure it's built on evidence, not guesswork. Using a systematic, strategic approach, **neXtRecord** banks your data and **neXtRank** levels the playing field, stripping out environmental factors so your ewes are compared fairly on genetic merit. You keep the ones that best suit your breeding objective, cull the underperformers and trust that every ewe staying on has earned her place.

Optimise your ewe flock

AGRI

neXtRank

nextgen
AGRI

neXtRecord

Your mature ewes are the engine of the flock, and knowing which to keep and which to move on is where real gains are made. We help you make those calls with confidence. eID and **neXtRecord** do the quiet work in the background, capturing each ewe's performance year on year so the decisions rest on her track record, not a hunch. We handle the setup, the data collection and the hardware, then hand the data back clean and ready to act on. With **neXtRank**, you keep the ewes earning their place and cull the ones that aren't, building a flock that gets stronger every season.

Partnership pricing

We'll work with you to determine the best combination of services to suit your needs. Prices are GST exclusive and do not include any direct costs of travel or consumables used on your behalf.

neXtgen Sheep Producer	Breeding ewe numbers (ewes to the ram older than one year)				
	<1000	1000-2000	2000-3500	3500-6000	6000+
Breeding objective, flock policy, neXtSelect index and neXtPlan calendar (reviewed annually) PLUS your choice of at least one of the services below.	\$500	\$750	\$1000	\$1250	\$1500
Ram team management (including annual audits and ram selection)	\$1000	\$1250	\$1500	\$1750	\$2000
Replacement ewe selection using eID, neXtRecord and neXtRank *	\$1000	\$1500	\$2000	\$2500	\$3000
Optimising your mature ewe flock with eID, neXtRecord and neXtRank #	\$750	\$1000	\$1250	\$1500	\$1750

* Five traits included, further traits may incur additional charges

Additional hourly charges may be applied for on-farm recording and/or data-handling

A background photograph showing two men in dark jackets and caps standing in a field with sheep. The man on the left is leaning on a metal railing, and the man on the right is standing behind a wooden fence. Several sheep are visible in the foreground and middle ground. In the background, there is a large white building with multiple windows and a grassy field.
