

Visual Schedule Maker

Today I am going to Children's
Museum Houston

How to make your visual schedule

Before you visit:

- Print out the template, and any extra blank pages you need.
- Where do you want to go? Pick the matching pictures, cut them out, and stick them onto your schedule.
- Use the cards on pages 7 and 8 to say when you need something, like a break, or a sensory toy, or the bathroom.
- If you want to, you can bring extra pages to add more places during your visit!

During your visit:

- Bring your schedule with you to the museum. After you finish each activity on your schedule, check it off in the “All Done” column.

After you visit:

- Look over your schedule after your visit, so you can remember all of the fun things you did at the museum!
