Account Name	Chip Easy Access Saver																
What is the interest rate?	Interest is payable on this account. The Chip Easy Access Account interest is based on the Bank of England base rate. The interest rate is variable and tracks at a margin of 1.29% (gross) below the Bank of England base rate (This is your "Standard Easy Access Rate"). To monitor the Bank of England base rate visit www.bankofengland.co.uk. The Chip Easy Access Saver puts a restriction on the number of withdrawals you can make on the account in a 12 month period. Your counter starts on the opening date of the account and resets annually on the anniversary date of the account. You are restricted to 3 withdrawals in the 12 month period. If you make more than 3 withdrawals your rate will drop to your "Reduced Easy Access Interest Rate". Your rate will reset to the Standard Easy Access Interest Rate on your anniversary date and your limit of 3 withdrawals is also reset. As of 21 October 2025 the current standard rates apply for the Chip Easy Access Saver: <table border="1"> <tr> <td>Standard Easy Access Interest Rate (3 or less withdrawals)</td><td>2.74% AER</td></tr> <tr> <td>Reduced Easy Access Interest Rate (4 or more withdrawals)</td><td>0.64% AER</td></tr> </table> Anyone that opened the Chip Easy Access Saver account prior to 21 October 2025 will receive the interest rates as detailed on this webpage. From 14:00 on 21 October 2025 eligible customers will be able to access a boosted rate for the Chip Easy Access Account. To be eligible for the Boosted Easy Access Promotion Rate you must be a new Chip customer. A new customer is defined as someone who has never previously transacted in a Chip account and has no other promotional rates applied on any Chip products. AER Interest is calculated daily on the full closing balance in the account. AER stands for Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and compounded once each year. Interest will be calculated daily at midnight and paid monthly on the fourth business day of each month for interest earned in the previous month. Information on interest paid out can be found both on your monthly statement and in your Chip App. Where at any time the Bank of England base rate is at a level that is equal to or below the interest rate margin then the interest rate you receive will be 0.00%. Can Chip change the interest rate?	The interest rate on your Chip Easy Access Account is variable and can go up or down without notice depending on changes to the Bank of England base rate. If the Bank of England base rate changes, the new interest rate on your account will apply without the 14 days' notice. We may vary your Standard Easy Access Rate, your Reduced Easy Access Rate, your Boosted Standard Easy Access Rate or your Boosted Reduced Easy Access Rate in accordance with our rights to make changes as set out in Chip's Terms and Conditions. If we change any of the Standard Easy Access Rate, Reduced Easy Access Rate, Boosted Standard Easy Access Rate or Boosted Reduced Easy Access Rate and the change is to your disadvantage, you will be given 14 calendar days' notice before the change comes into effect. If we tell you about a change in any of the Standard Easy Access Rate, Reduced Easy Access Rate, Boosted Standard Easy Access Rate or Boosted Reduced Easy Access Rates and you are not happy, you can ask us to close your Chip Easy Access Account before the change happens. If we do not hear from you, we will assume that you are happy with the change we have made. If we change any of the rates to your advantage, the change will be applied immediately and we will let you know.																								
What would the estimated balance be after 12 months based on a £1,000 deposit?	From 14:00 on 21 October 2025 eligible customers will be able to access a boosted rate for the Chip Easy Access Account. Please see the table below: <table><tr><th>Months earning the Standard Easy Access Interest Rate (2.74% AER)</th><th>Months earning the Reduced Easy Access Interest Rate (0.64% AER)</th><th>Balance after 12 months at Standard Easy Access Rate</th><th>Balance after 12 months including promotional 1.63% AER boost</th></tr><tr><td>12</td><td>0</td><td>£1,027.40</td><td>£1,043.70</td></tr><tr><td>9</td><td>3</td><td>£1,022.05</td><td>£1,038.37</td></tr><tr><td>6</td><td>6</td><td>£1,016.81</td><td>£1,033.12</td></tr><tr><td>3</td><td>9</td><td>£1,011.59</td><td>£1,027.90</td></tr><tr><td>0</td><td>12</td><td>£1,006.40</td><td>£1,022.70</td></tr></table> This is just an example and not based on your individual circumstances. It assumes that you do not add or take out any money during the year, and that there was no change to the interest rate during the 12 months. It also assumes that the Bank of England base rate as of 21 October 2025 remains unchanged at 4.00% during the 12-month period. Following the expiration of a Boosted Chip Easy Access Promotional Rate, your account will revert to the Standard or Reduced Easy Access Rate. You're unlikely to experience a full 12 months at the Reduced Easy Access Interest Rate as it will only apply from your 4th withdrawal but this scenario has been included in the table above to demonstrate the potential impact.
