

2300 European Wax

Economy General Purpose Ribbon

The 2300 European Wax Ribbon—a versatile and reliable solution for all your labeling needs. Designed as a standard wax ribbon, it is perfectly suited for use with both uncoated and coated paper labels and tags, ensuring adaptability across various applications. The 2300 Zebra Wax Ribbon delivers excellent print quality, whether you are printing standard or rotated barcodes, making it an ideal choice for businesses that require precision and clarity. Capable of achieving impressive print speeds of up to 304 mm per second (12 ips) for standard barcodes and 152 mm per second (6 ips) for rotated barcodes, this ribbon ensures efficiency without compromising on quality. It particularly excels when used with Zebra desktop printers, providing seamless integration and performance. Choose the 2300 Zebra Wax Ribbon for consistent, high-quality results in your labeling operations.

The perfect companion for your Zebra labels, tags, and printers

Not all ribbons are created as equal. There are hundreds of different ribbon formulations in the market. That is why Zebra's supplies R&D team has tested and selected only those ribbons that deliver the best print quality and durability. To get the Zebra name, each ribbon must pass a series of print quality and durability tests. When you purchase Zebra wax ribbons you can be rest assured that the print will be readable and scannable every time. Print will and can withstand the environmental conditions it is utilized in. Backcoating will not cause premature printhead failure.
