

FIELD SERVICE REPRESENTATIVE

Dallas-Fort Worth, TX (DFW)

Location: Dallas-Fort Worth International Airport (DFW), TX, USA

Job Status: Full-Time

Date Posted: 31 July 2025

Adacel Technical Services, Inc. (ATS) provides a complete set of on-site training services for aerospace and defense markets. Services include instructional delivery, simulation operation and maintenance, instructional system design, and training support. Please read on to learn more about the **Field Service Representative (FRS)** career opportunity at ATS.

Essential Duties and Responsibilities:

- Troubleshoot and maintain Air Traffic Control (ATC) Simulator hardware components
 - Fault isolate/replace displays/monitors, and computer equipment/peripherals, e.g., hard drives, video cards, desktops/laptops, printers, etc. as necessary
- Troubleshoot, isolate, and resolve software problems
 - Perform step-by-step procedures for acquiring and installing software upgrades and patches
 - Evaluate local conditions and make proper decisions in conjunction with the Adacel Support Center
 - Load operating systems and applications as required
 - Update existing software and site data as required
- Perform start-up and shut-down procedures
- Perform system back-up procedures
- Train personnel on ATC Simulator maintenance and operation
- Operate ATC Simulator for training as requested
- Complete documentation and brief personnel and management on simulator maintenance issues, performance, and utilization as requested
- Develop and maintain site simulator utilization reports reflecting frequency and type of training done
- Backup and manage scenario data
- Act as a Pseudo Pilot when needed (the Pseudo Pilot simulates aircraft movement and engages/communicates with a controller as a pilot.)
- ATC Simulator Scenario development:
 - Determine step-by-step procedures for building scenarios
 - Incorporate the training objectives into the development of the training scenarios
 - Create scenarios as requested with minimal assistance
 - As requested, train personnel to create and maintain scenarios

Qualifications:

Required:

- Knowledge of computer hardware and operating system software similar to, or more complex than the ATC Simulation Systems (Tower and Radar)
- Minimum of four (4) years of FAA or US Military operational ATC experience, or a minimum of four (4) years of combined FAA and US Military operational ATC experience, or a degree in Air Traffic Control or Air Traffic Management from the Air Traffic – Collegiate Training Initiative (AT-CTI). List of approved AT-CTI colleges and universities can be found at:
<https://www.faa.gov/jobs/students/schools/>

Desired:

- Proactive, self-motivated individual
- Ability to accomplish tasks with minimal supervision
- Good organizational skills and the ability to prioritize multiple tasks and manage work time effectively
- High attention to detail
- Excellent communication skills
- As a member of the Adacel team and the training team at your location, this position should work well with others and be proficient at conflict resolution

Skills/Abilities/Certifications:

- Certification Requirements:
- As required for Remote Pilot Operations

Other:

- Clearance Level: Must be able to obtain a Public Trust clearance
- Potential for Teleworking: No
- Travel: Often, as required

Physical Requirements:

- Must be able to use simple hand tools
- Occasional lifting up to 50 lbs. without restriction
- Repetitive wrist, hand, and finger movement.
