

PROJECT MANAGER

Are you interested in joining an organization that:

- Plays a significant role in global airspace safety?
- Has over 35 years of experience providing industry leading Air Traffic Control (ATC) simulation training systems and state-of-the-art Air Traffic Management (ATM) solutions?

If this sounds interesting, continue reading about our job opportunity below.

Position Summary:

Adacel is looking for a **Project Manager** to join Adacel Technologies Estonian Remote Tower team. Our mission is to develop cutting-edge technologies for remote air traffic control, integrating radars, cameras, and radio communications into AI-enabled airport control systems.

Essential Duties and Responsibilities:

- You will be responsible for leading projects from initiation to delivery, ensuring that solutions meet customer needs, are delivered on time and budget, and support the company's business goals.
- You will coordinate activities across internal teams, customers, and external partners, and manage all key aspects of project planning, execution, risk management, delivery, and documentation.
- Work closely with Engineering, Quality, Marketing, Sales and other departments to ensure seamless product development and delivery.
- Contribute to internal process development and support ISO audits and compliance efforts.

As a successful candidate you must have:

- Bachelor's degree in IT, Business, or a related field.
- Previous experience as a Project Manager, Project Coordinator, or Lead System/Software Developer, minimum 5 years of experience in IT development projects.
- Solid understanding of AGILE/SCRUM and system development lifecycle (SDLC) methodologies and experience with Jira and Confluence.
- Basic proficiency with MS Project or similar Gantt-based project tools.
- Strong analytical, problem-solving, and organizational skills.
- Ability to work independently and collaborate across diverse, international teams.
- International project management experience, including subcontractor management.

- Proficiency in Estonian and English language.

Other Qualifications:

- Ability to pass an Adacel background check while employed.
- Ability to travel on a frequent basis without advance notice. Must be able to travel to Canada, United States and other countries if it´s needed.

Work Environment:

- Location: Tallinn, Estonia
- Job Status: Full Time
- Hybrid teleworking environment

Benefits:

- Enjoy flexible working arrangements that suit your lifestyle.
- Be part of an international team that´s developing world-class, unique technologies for air traffic management.
- Receive support for your professional growth and skill development - paid external training, professional literature, e-courses.
- Benefit from a motivating compensation system and a workplace that values your contributions.
- Make a global impact with solutions implemented for air traffic customers worldwide.
- Enjoy supportive corporate culture and numerous career opportunities.

How to Apply:

- You may apply by emailing your resumé to careers@adacel.com
- Include the position title in the subject line of your message.
