Custom-Designed Sheds

Why Choose Custom-Built?

We are ready to meet your unique needs just like we do for each customer. We design and build a wide variety of storage sheds and workshops. We are here to provide you with a solid solution, and a full-service experience. We are dedicated to provide you with quality, long-lasting, durable construction. All of our structures are built locally in Lancaster County, and we offer both pre-built and on-site construction.

We've satisfied thousands of customers over the past 20 years, and you can be next! What would you like to accomplish with your new structure? We will design and build your shed to achieve your specific purposes. You'll find many great examples here in these pages.

What Our Customers Are Saying

"The quality of the products is incredible from the materials used, to the build, to the craftsmanship, etc. The installation crew was great, very efficient, friendly, capable, fast, etc. Cannot recommend the whole operation enough for anyone looking for a pavilion, gazebo, villa, shed or other structure."

David Roe

"The shed is more a beautiful cottage which is what I was looking for. Thus ends a 10-month search and research for the perfect shed... and I am 100% confident I made the right decision ... for this awesomely engineered and very well built out-building on our property Beautiful. Thank you. I am incredibly satisfied."

John

"Creating our custom garage with these folks was positive from start to finish. They listened and implemented every minute detail. On-site personnel were respectful of our existing landscape and creatively worked through challenges. Their advanced preparation made for an unbelievably fast build with minimal disruption. We started the project with very high expectations and don't know when we've been so pleasantly surprised. Awesome job and we highly recommend!"

Kent Powell
