FAQ

DOING BUSINESS WITH WORKPATH

1 What does Workpath offer?

Workpath offers a Software as a Service (“SaaS”) accessible via the internet as a cloud computing service.

2 What is “Cloud Computing”?

Please find the industry standard definition by the National Institute of Standards and Technology (“NIST”) [here](#), and the Wikipedia page [here](#).

3 Does Workpath’s SaaS offer include any software that is running on Customer’s premises?

No, Workpath’s SaaS offer is software that is solely running on servers managed by Workpath and its vendors. Therefore, there is no software on Customer’s premises that needs to be deployed or managed by Customer.

4 How is Workpath’s SaaS offer accessed by Customers?

Via an internet browser.

For more information reach out to

kontakt@workpath.com
<https://www.workpath.com/>

5 Which business process does Workpath’s SaaS offer support?

Workpath’s AI-enhanced SaaS helps create an operating model that connects strategy and execution. Manage input, output, outcomes and impact - across all teams, tools and processes.

6 How can I purchase Workpath’s SaaS offer?

By reaching out to sales@workpath.com or your personal sales contact of a Workpath Sales Representative.

You will then get a Quote or Proposal Document which shows you all relevant product, pricing and contract information.

All Workpath Services purchased are subject to Workpath’s terms & conditions included in the Workpath Master Services Agreement which you can find on <https://www.workpath.com/legal>.
