

AI That Doesn't Just Answer, It Acts

Bodie is the AI assistant built into Uncountable that turns a plain-language request into real work across end-to-end product development. Bodie is available with the Gen AI module; talk to your Account Manager to turn it on.

Uncountable's AI end-to-end platform is deployed by

What Can Bodie Do In Your Lab?

Find any past result, note or file

Search in plain language: Bodie reads and compares full documents.

Search in plain language

Filter, sort and add columns, reshape any table with a single prompt.

Build visualizations from a prompt

Plot your data by describing it, with no manual axis setup.

Summarize projects

Bodie turns a set of experiments into key insights, plots and tables.

Diagnose root cause in minutes

Bodie reads your experiments to surface why a batch went out of spec.

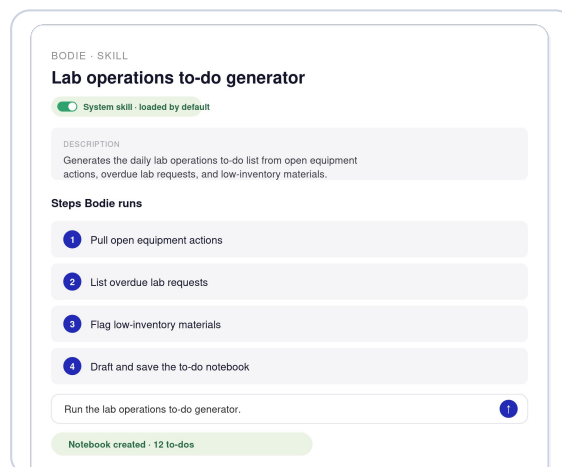

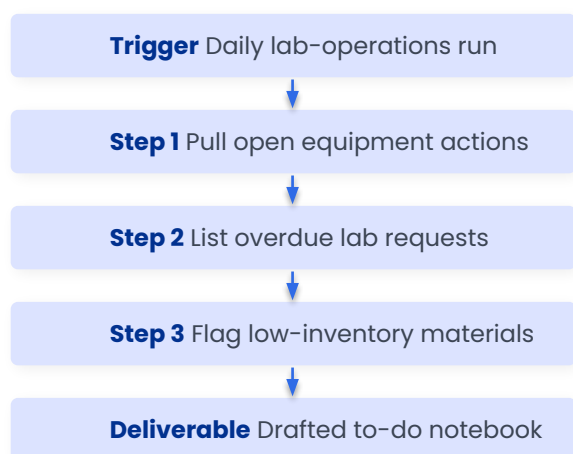

Accelerate formulation development

Uncountable's machine learning engine, now guided by Bodie.

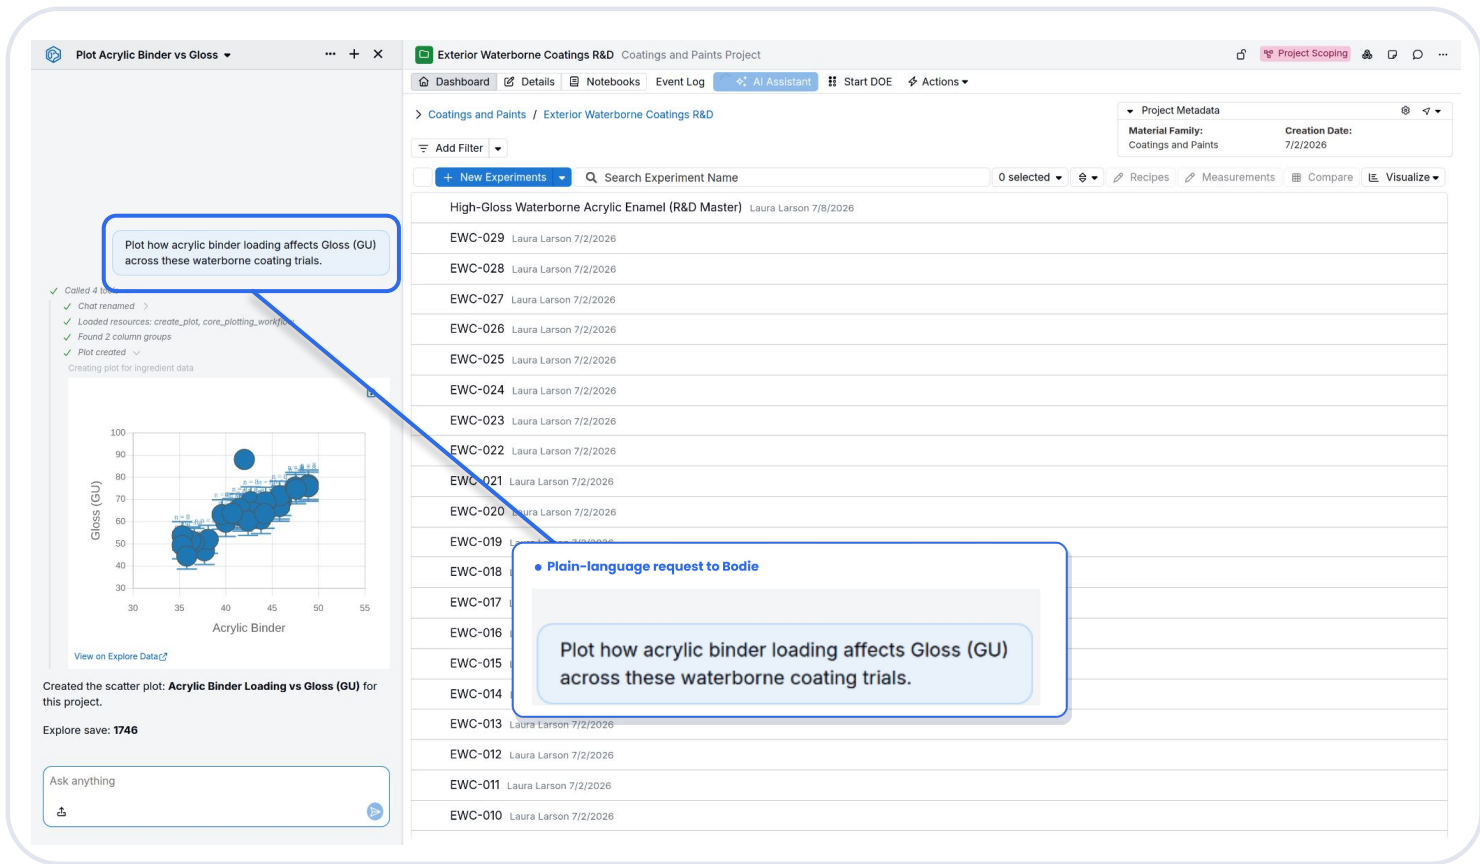

Automate Any Workflow With Skills

Write a multi-step process once, and Bodie runs it on demand

From Plain Language To Done, With Bodie

Bodie is built into every page of Uncountable, and learns and acts from your data.

Spend More Time On Science

The screenshot shows a 'Certificate of Analysis' for Toluene, generated by Uncountable. It includes product details, supplier information, and a table of test results.

Test	Method	Specification	Result
Appearance (Form)	Visual	Clear liquid	Clear liquid
Appearance (Color)	ASTM D1209	≤ 10 APHA	5 APHA
Identity	Infrared spectrum	Conforms to structure	Conforms
Assay (purity)	GC	≥ 99.8 %	99.9 %
Water	Karl Fischer (ASTM E203)	≤ 0.005 %	0.002 %
Density @ 25°C	ASTM D4052	0.865 - 0.868 g/mL	0.866 g/mL
Refractive Index n _D ²⁰	ASTM D1218	1.4960 - 1.4970	1.4966
Boiling Point	ASTM D1078	110 - 111 °C	110.6 °C
Evaporation Residue	Gravimetric	≤ 0.0005 %	0.0002 %

Disposition: RELEASED - CONFORMS TO SPECIFICATION

Quality approval: M. Reyes, QC Laboratory Supervisor

Sample and diagnose QC results

Ask why a result looks off and Bodie samples the related recipes and explains it.

Parse unstructured documents

Pull structured data out of supplier specs and notes.

Catch out-of-spec in real time

Live SPC flags a drifting result as data is entered, so issues surface on the spot.

See It on Your Own Data

Book a personalized demo and we'll show you how Uncountable applies to your lab.
