

# Bring your people with you on the move to one platform

## CHANGE MANAGEMENT

Change management guides people from the current way of working to a new one. Uncountable supports that move with a platform that fits your process and helps each user learn it.

### COMMUNICATE

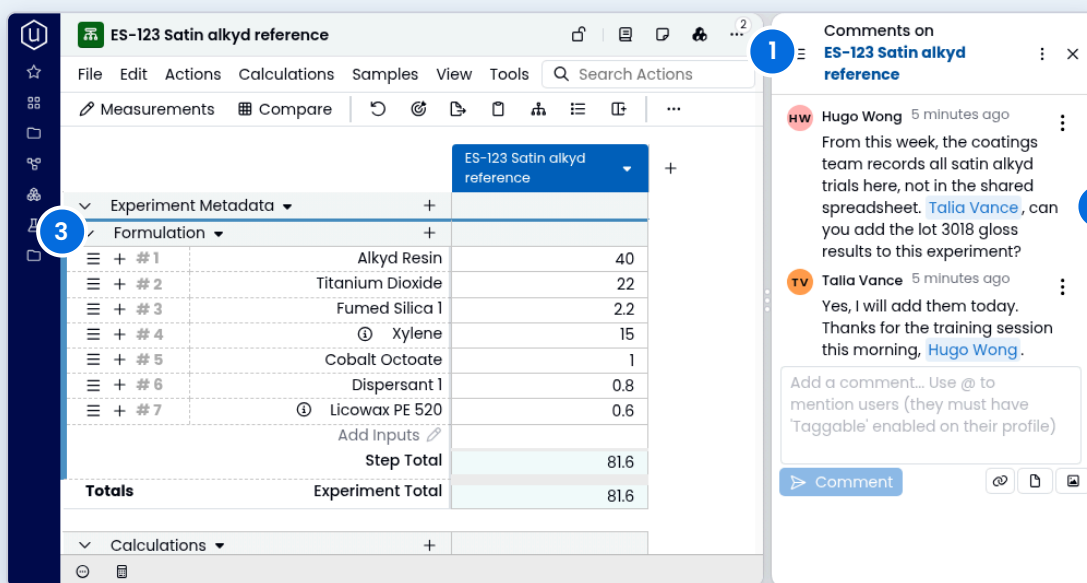

Discuss work in the comments of each record. A mention sends a colleague a notification.

### TRAIN

Guided walkthroughs and the Uncountable Resource Center help each user learn the platform.

### BODIE AI AGENT

Ask Bodie AI Agent how to do a task, and get an answer from the Uncountable Knowledge Base.

The screenshot shows the 'ES-123 Satin alkyd reference' record in the Uncountable platform. The record is displayed in a table format with columns for 'Experiment Metadata', 'Formulation', and 'Totals'. The 'Formulation' section lists various components and their quantities. To the right of the record, there is a 'Comments' panel showing a discussion between Hugo Wong and Talia Vance. Hugo Wong's comment mentions 'Talia Vance' and 'Hugo Wong', which are highlighted with blue circles and numbered 1, 2, and 3 respectively. The 'Comments' panel also includes a 'Comment' button and a 'Mentions' section.

#### 1 Comments

Each record keeps its own discussion.

#### 2 Mentions

A mention notifies a colleague.

#### 3 Record

The discussion stays next to the formula that it is about.

## THE UNCOUNTABLE PLATFORM

Uncountable's AI-native end-to-end platform is deployed by 175+ product development teams.

## HOW IT WORKS

# Support your people at each step of the change

Change management works through communication, training, and leadership. Uncountable supports each of them in the platform that your teams adopt.

### Your process

Configure record types, fields, and phases that follow how your teams work today.

### Notifications

A mention, an assignment, or a review request sends a notification in the platform or by email.

### Access for each team

Give each user group access to its own projects, and add teams one at a time.

### Your data

Import experiments, ingredients, and other records from spreadsheets.

### Guided walkthroughs

Walkthroughs take users through a task step by step, and a checklist shows the progress of each user.

### A start page for each group

Admins set the landing page that users see, for all users or for one user group.

### Your language

Each user picks one of 20 interface languages in the user settings.

### Help in the platform

The Support menu links each user to the Uncountable Resource Center.

### User activity

With User Analytics, see the activity of each user over the last 30 days.

## Example: a phased rollout

A coatings group moves its R&D teams from shared spreadsheets to Uncountable, one team at a time.

#### KICKOFF

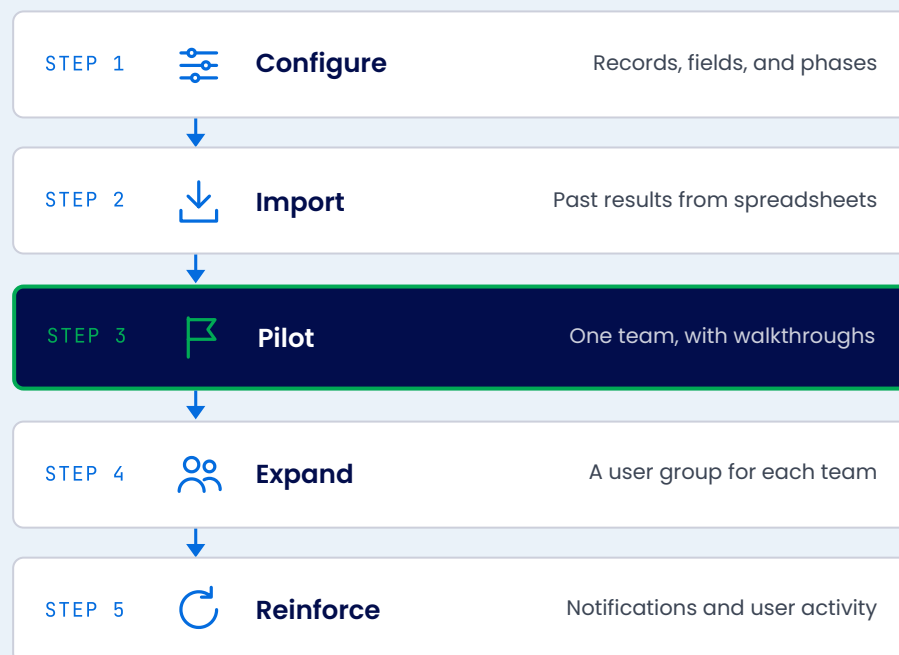

Leaders explain why the change matters, and each team names a champion.

#### CUSTOMER VOICE

"Their responsive team and support with customizing workflows and automation have been invaluable."

#### Alexander Girau

Co-founder and CEO, Group1
