

A modern, minimalist office lobby with a large window on the left, a blue sofa with a planter, a reception desk, and a public lift. The text "ECO PUBLIC LIFT" is overlaid in the center.

# ECO PUBLIC LIFT

vimec PREMIER

## ECO PUBLIC LIFT

A truly economical solution offering low energy consumption, space saving and simple installation. With many personalisation options to suit all tastes, our ECO Public Lift can be a great addition to provide access to any public space.

### **SPEED : 0.15 M/S**

The ECO Lift offers smooth consistent speed between floors and is in conformity with machinery directive 2006/42/CE.

### **LOW PIT & HEADROOM REQUIREMENTS**

Pit required can be as low as 120mm\* or ramp can be provided. Minimum headroom from the top floor FFL can be an industry leading 2450mm\*.

### **TRACTION & HYDRAULIC DRIVE OPTIONS**

Drive options that are suited to the user and building requirements. We work with you to provide the best option.

### **RATED LOAD: UP TO 500KG \***

Different drive options offer the opportunity to increase capacity of our ECO Lift for the most intensive uses.

### **TRAVEL: 5 STOPS (14.6M) \***

Suitable for most residential and public spaces with a simple, fast installation.

### **MEETS ALL LEGISLATION REQUIREMENTS**

All of our products comply with Europe's strictest safety requirements. Ensuring safety with the latest EC directives.

\* These are possible min/max values, certain drive and building requirements may limit values. See brochures technical pages or contact a sales specialist for more information.

## THE DESIGN OF THE ECO LIFT

### CLEAR LCD DISPLAYS

Bright, sharp LCD displays available for the landing / cabin controls - simple and clear design for ease of use.

### ADD PERSONALITY WITH A RANGE OF FINISHING OPTIONS

With a wide range of finishes, the lift can be tailored to complement both traditional and modern interiors.

### CABINS DESIGNED FOR WHEELCHAIR ACCESS

Our cabins are designed with ergonomics that suit disability access in any public space, with considered control placement and braille descriptions.

## STRUCTURES FOR INDOOR AND OUTDOOR USE

Our lifts can be provided with highly customisable structures. They are modular in design with different types of glass panelling to suit installations of all kinds and provide support when masonry work is unavailable.

Our skilled engineering team ensures installation is completed quickly with great care to the surrounding environment.

## INSTALLATIONS IN PUBLIC & COMMERCIAL SPACES ACROSS THE UK

We take a personal approach to each project. From bespoke technical drawings to swift and tidy installation, we strive to ensure that all your requirements and ideas are reflected in the finished product.

Installation is simple and efficient, requiring minimal structural work. Our process limits disruption to your premises and surrounding public areas, helping day-to-day operations continue with minimal interruption.

## EASY TO FOLLOW AND COMPREHENSIVE DRAWING PACK

Our visual, site-specific drawing pack provides clear guidance for preparing the site ahead of installation and highlights the critical dimensions requiring your approval.

### The drawing packs cover the following:

- Lift dimensions
- Shaft dimensions
- Forces and loading details
- Electrical Requirements
  - Fixing points
- Doors dimensions and fixing points
- Scaffolding, lighting and safety requirements
- Cabin and door finishes

## SERVICING & WARRANTY

We offer a 12 month warranty (including parts) with 2 service visits annually as standard. For extended warranty options and more information, please contact our sales team.

**BOOK A NO OBLIGATION CONSULTATION**

Start a conversation with us today. We will assess your requirements, talk through our available options and ensure we meet your lift solution needs.

EXPERT POWDER COATED  
SURFACES IN ANY RAL  
COLOUR

When a more specific finish is needed, we offer electric powder coated RAL colours. Our powder coated surfaces can be more resistant to chipping, scratching, fading, and wearing than other finishes, meaning it is extremely durable. The process is also environmentally friendly as virtually no pollutants are released into the air.

# HANDRAIL

The Eco Public Lift comes as standard with a matt black aluminum handrail – finish similar to the cabin profiles - can be installed as option.

The length of the handrail varies based on the length of the wall where it is installed (it is fixed to the cabin profiles).

LARGE VISION PANEL

# CABIN OPERATING PANEL (COP)

The Car Operating Panel (COP) is manufactured in the same finish as the selected cabin wall cladding as standard, ensuring a seamless integration with the cabin interior. Alternatively, the COP can be specified in a contrasting finish to complement bespoke design requirements.

Mounted within the central cabin wall panel, the COP incorporates all essential lift controls, and integrated autodialler communication system.

All push buttons are tactile, and feature illuminated visual indication to enhance usability and accessibility. The panel is designed to provide intuitive operation while maintaining compliance with applicable accessibility and safety requirements.

# LANDING OPERATING PANEL (LOP)

The Landing Operating Panel (LOP) is manufactured in titanium and features a floor display, a rectangular tactile mechanical button with green backlighting when available and red when the lift is occupied.

The lift is called with a single touch, and the design mirrors the internal cabin button panel.

# DRIVE OPTIONS

Our electric traction lift is suitable for most home and public applications. The belt drive traction system ensures that this through-floor lift is almost silent in operation, which is achieved by just one touch of a button, exactly the same way as a passenger lift.

For a greater capacity or specific use cases we offer an hydraulic drive system that easily accommodates every load.

We work with you to ensure the choice you make is the right one.
